(3) Any city that maintains a "regular fire department," and has either by incorporation or annexation caused property to be stricken from a fire protection district or a volunteer fire department district, shall assume the liability of such taxes as may be necessary to pay the proportional share of the indebtedness incurred while such territory was a part of said district.

(4) The territorial limits of two (2) or more fire protection districts, or volunteer fire department districts, as established by KRS 75.010 to 75.080, may be merged into one (1) fire protection district or volunteer fire department district as follows:

(a) The trustees of each fire protection district or volunteer fire department district shall file a joint petition in the county clerk's office of the county in which all of the districts and the territory to be merged into one (1) district, or the greater part of the district, is located, describing the territory to be merged into the district and setting out the reasons for the merger;

(b) Notice of the filing of the petition shall be given by publication as provided in KRS Chapter 424 for public notices;

(c) On the day fixed in the notice, the county judge/executive shall, if proper notice by publication has been given, and no written objection or remonstrance has been made, enter an order merging the fire protection districts or volunteer fire department districts described in the petition;

(d) Fifty-one percent (51%) or more of the property owners of the territory sought to be merged into one (1) district may, at any time before the date fixed in the notice, remonstrate by written petition to the county clerk regarding their objection to the merger of the districts. If a petition is filed, the county clerk shall give prompt notice to the trustees of the fire protection districts or the volunteer fire protection districts and the county judge/executive;

(e) The county judge/executive shall schedule a hearing regarding the petition and shall give public notice as to the date, time, and place of the hearing. If after the hearing, the county judge/executive finds from the evidence that a failure to merge the territory will materially retard the functioning of the fire protection districts or volunteer fire department districts and materially affect adversely the owners and the inhabitants of the territory sought to be merged, he shall enter an order granting the merger of the districts into one (1) fire protection district or volunteer fire department district;

(f) If a merger of districts occurs, no new petition to merge or change the territorial boundaries of the newly-merged district shall be attempted for a period of two (2) years; and

(g) Any aggrieved person may bring an action in Circuit Court to contest the decision of the county judge/executive regarding the merger fire protection districts or volunteer fire department districts.

(5) The property in any fire protection district or volunteer fire department district which is merged with another fire protection district or volunteer fire department district shall not be liable to taxation for the purpose of paying any indebtedness incurred by the other fire protection district or volunteer fire department district prior to the date of the merger into one (1) fire protection district, except indebtedness which represents a balance owed on the purchase price of firefighting equipment from the other fire protection district or volunteer fire department district.

(6) If two (2) or more volunteer fire department districts merge under the provisions of this section, then they shall be entitled to the volunteer fire department aid schedule and merger incentive as provided for in Section 1 of this Act.

SECTION 2. A NEW SECTION OF KRS CHAPTER 95A IS CREATED TO READ AS FOLLOWS:

As used in Sections 1 to 7 of this Act, unless the context requires otherwise:

(1) "Qualified fire department" means any volunteer fire department in any city of any class, fire protection districts organized pursuant to KRS Chapter 75, county districts established under authority of KRS 67.083, and volunteer fire departments created as nonprofit corporations pursuant to KRS Chapter 273 eligible to receive volunteer fire department aid under subsection (2) of Section 8 of this Act; and

SECTION 3. A NEW SECTION OF KRS CHAPTER 95A IS CREATED TO READ AS FOLLOWS:

(1) The Commission on Fire Protection Personnel Standards and Education shall pay to the merged district, for the first, second, and third years after the merger, the number of qualified shares of volunteer fire department aid allotted under subsection (2) of Section 8 of this Act equal to the total number of qualified shares that each department would have received previous to merger;

(2) The Commission on Fire Protection Personnel Standards and Education shall pay to the merged district, for the fourth, fifth, and sixth years after the merger, the number of qualified shares of volunteer fire department aid allotted under subsection (2) of Section 8 of this Act equal to fifty percent (50%) of the total number of qualified shares that each department would have received previous to merger, plus one (1) yearly disbursal of four thousand dollars ($4,000) as a merger incentive; and

The parent fire department shall have aid allotted under subsection (2) of Section 8 of this Act reduced by one (1) qualified share for calculations of aid, for the first, second, third, fourth, fifth, and sixth years after merger.

SECTION 6. A NEW SECTION OF KRS CHAPTER 95A IS CREATED TO READ AS FOLLOWS:

The Commission on Fire Protection Personnel Standards and Education shall calculate and disburse to each district merged after January 1, 2000, but before the effective date of this Act, any payments owed the district according to the schedule set out in this section. In order to receive the payment, the trustees of the volunteer fire district shall notify the commission in writing within sixty (60) days of the effective date of this Act that there has been a merger in their jurisdiction within that time. If sufficient funds do not exist to make all the payments at one (1) time owed under the provisions of this subsection, then the available amount shall be prorated evenly and proportionately and disbursed among those merged districts each disbursal

cycle until the total amount has been paid to each of those districts. The commission shall not reduce any other payments under KRS 95A.262 to make the payments under this subsection.

SECTION 7. A NEW SECTION OF KRS CHAPTER 95A IS CREATED TO READ AS FOLLOWS:

The merged district shall have ninety (90) days to come into compliance with the requirements for qualification. If the merged district does so, then the commission shall resume payments as calculated under Section 3 of this Act. If the merged district does not come into compliance within ninety (90) days of the loss of qualification, then the commission shall not resume payments as calculated under Section 3 of this Act. Should the merged district come into compliance after ninety (90) days, it shall receive only one (1) qualified share of the volunteer fire department aid under subsection (2) of Section 8 of this Act.

Section 8. KRS 95A.262 is amended to read as follows:

(1) The Commission on Fire Protection Personnel Standards and Education shall, in cooperation with the Cabinet for Health Services, develop and implement a continuing program to inoculate every paid and volunteer firefighter in Kentucky against hepatitis B. The program shall be funded from revenues allocated to the Firefighters Foundation Program fund pursuant to KRS 136.392 and 42.190. Any fire department which has inoculated its personnel during the period of July 1, 1991 to July 14, 1992, shall be reimbursed from these revenues for its costs incurred up to the amount allowed by the Cabinet for Human Resources for hepatitis B inoculations.

(2) Except as provided in subsection (3) of this section and KRS 61.316, the Commission on Fire Protection Personnel Standards and Education shall allot on an annual basis a share of the funds accruing to and appropriated for volunteer fire department aid to volunteer fire departments in cities of all classes, fire protection districts organized pursuant to KRS Chapter 75, county districts established under authority of KRS 67.083, and volunteer fire departments created as nonprofit corporations pursuant to KRS Chapter 273. The commission shall allot eight thousand dollars ($8,000) annually to each qualifying department, and beginning on July 1, 2001, the commission shall allot eight thousand two hundred fifty dollars ($8,250) annually to each qualifying department. Any qualifying department which fails to participate satisfactorily in the Kentucky fire incident reporting system as described in KRS 304.13-380 shall forfeit annually five hundred dollars ($500) of its allotment. ***If two (2) or more qualified volunteer fire departments, as defined in Sections 1 to 7 of this Act, merge after January 1, 2000, then the allotment shall be in accordance with the provisions of Sections 1 to 7 of this Act.*** The commission shall recommend to the commissioner of the Department of Housing, Buildings and Construction the promulgation of administrative regulations in accordance with the provisions of KRS Chapter 13A to define satisfactory participation in the Kentucky fire incident reporting system. Administrative regulations for determining qualifications shall be based on the number of both paid firefighters and volunteer firemen within a volunteer fire department, the amount of equipment, housing facilities available, and such other matters or standards as will best effect the purposes of the volunteer fire department aid law. A qualifying department shall include at least twelve (12) firefighters, a chief, and at least one (1) operational fire apparatus or one (1) on order. Fifty percent (50%) of the firefighters shall have completed at least one-half (1/2) of one hundred fifty (150) training hours toward certification within the first six (6) months of the first year of the department's application for certification, and there shall be a plan to complete the one hundred fifty (150) training hours within the second year. These personnel, equipment, and training requirements shall not be made more stringent by the promulgation of administrative regulations. No allotment shall exceed the total value of the funds, equipment, lands, and buildings made available to the local fire units from any source whatever for the year in which the allotment is made. A portion of the funds provided for above may be used to purchase group or blanket health insurance and shall be used to purchase workers' compensation insurance, and the remaining funds shall be distributed as set forth in this section.

(3) There shall be allotted two hundred thousand dollars ($200,000) of the insurance premium surcharge proceeds accruing to the Firefighters Foundation Program fund that shall be allocated each fiscal year of the biennium to the firefighters training center fund, which is hereby created and established, for the purposes of constructing new or upgrading existing training centers for firefighters. If any moneys in the training center fund remain uncommitted, unobligated, or unexpended at the close of the first fiscal year of the biennium, then such moneys shall be carried forward to the second fiscal year of the biennium, and shall be reallocated to and for the use of the training center fund, in addition to the second fiscal year's allocation of two hundred thousand dollars ($200,000). Prior to funding any project pursuant to this subsection, a proposed project shall be approved by the Commission on Fire Protection Personnel Standards and Education as provided in subsection (4) of this section and shall comply with state laws applicable to capital construction projects.

(4) Applications for funding low-interest loans and firefighters' training centers shall be submitted to the Commission on Fire Protection Personnel Standards and Education for their recommendation, approval, disapproval, or modification. The commission shall review applications periodically, and shall, subject to funds available, recommend which applications shall be funded and at what levels, together with any terms and conditions the commission deems necessary.

(5) Any department or entity eligible for and receiving funding pursuant to this section shall have a minimum of fifty percent (50%) of its personnel certified as recognized by the Commission on Fire Protection Personnel Standards and Education.

(6) Upon the written request of any department, the Commission on Fire Protection Personnel Standards and Education shall make available a certified training program in a county of which such department is located.

(7) The amount of reimbursement for any given year for costs incurred by the Kentucky Community and Technical College System for administering these funds, including, but not limited to, the expenses and costs of commission operations, shall be determined by the commission and shall not exceed five percent (5%) of the total amount of moneys accruing to the Firefighters Foundation Program fund which are allotted for the purposes specified in this section during any fiscal year.

(8) The commission shall withhold from the general distribution of funds under subsection (2) of this section an amount which it deems sufficient to reimburse volunteer fire departments for equipment lost or damaged beyond repair due to hazardous material incidents.

(9) Moneys withheld pursuant to subsection (8) of this section shall be distributed only under the following terms and conditions:

- (a) A volunteer fire department has lost or damaged beyond repair items of personal protective clothing or equipment due to that equipment having been lost or damaged as a result of an incident in which a hazardous material (as defined in any state or federal statute or regulation) was the causative agent of the loss;
- (b) The volunteer fire department has made application in writing to the commission for reimbursement in a manner approved by the commission and the loss and the circumstances thereof have been verified by the commission;
- (c) The loss of or damage to the equipment has not been reimbursed by the person responsible for the hazardous materials incident or by any other person;
- (d) The commission has determined that the volunteer fire department does not have the fiscal resources to replace the equipment;
- (e) The commission has determined that the equipment sought to be replaced is immediately necessary to protect the lives of the volunteer firefighters of the fire department;
- (f) The fire department has agreed in writing to subrogate all claims for and rights to reimbursement for the lost or damaged equipment to the Commonwealth to the extent that the Commonwealth provides reimbursement to the department; and
- (g) The department has shown to the satisfaction of the commission that it has made reasonable attempts to secure reimbursement for its losses from the person responsible for the hazardous materials incident and has been unsuccessful in the effort.

(10) If a volunteer fire department has met all of the requirements of subsection (9) of this section, the commission may authorize a reimbursement of equipment losses not exceeding ten thousand dollars ($10,000) or the actual amount of the loss, whichever is less.

(11) Moneys which have been withheld during any fiscal year which remain unexpended at the end of the fiscal year shall be distributed in the normal manner required by subsection (2) of this section during the following fiscal year.

(12) No volunteer fire department may receive funding for equipment losses more than once during any fiscal year.

(13) The commission shall make reasonable efforts to secure reimbursement from the responsible party for any moneys awarded to a fire department pursuant to this section.

(14) There shall be allotted each year of the 1992-93 biennium one million dollars ($1,000,000), and each year of the 1994-95, 1996-97, 1998-99, and 2000-01 bienniums one million dollars ($1,000,000) of the insurance premium surcharge proceeds accruing to the Firefighters Foundation Program fund for the purpose of creating a revolving low-interest loan fund, which shall thereafter be self-sufficient and derive its operating revenues from principal and interest payments. The commission, in accordance with the procedures in subsection (4) of this section, may make low-interest loans, and the interest thereon shall not exceed three percent (3%) annually or the amount needed to sustain operating expenses of the loan fund, whichever is less, to volunteer fire departments for the purposes of major equipment purchases and facility construction. Loans shall be made to departments which achieve the training standards necessary to qualify for volunteer fire department aid allotted pursuant to subsection (2) of this section, and which do not have other sources of funds at rates which are favorable given their financial resources. The proceeds of loan payments shall be returned to the loan fund for the purpose of providing future loans. If a department does not make scheduled loan payments, the commission may withhold any grants payable to the department pursuant to subsection (2) of this section until the department is current on its payments. Money in the low-interest loan fund shall be used only for the purposes specified in this subsection. Any funds remaining in the fund at the end of a fiscal year shall be carried forward to the next fiscal year for the purposes of the fund.

(2) Upon death of a retired member, if no widow's annuity or children's annuities shall be due or payable, a death benefit shall be paid to the designated beneficiary or estate of the member, equal to the excess, if any, of the total contributions made by the member to this fund to the date of retirement, including those employee contributions picked up by the employer pursuant to KRS 65.155, without interest, over the total annuity payments received by the member. The minimum payment in such case shall be three hundred dollars ($300). Sole source is a situation in which there is only one (1) known capable supplier of a commodity or service, occasioned by the unique nature of the requirement, the supplier, or market conditions. Insofar as it is practical, no less than three (3) suppliers shall be solicited to submit written or oral quotations whenever it is determined that competitive sealed bidding is not feasible. The existence of the emergency condition creates an immediate and serious need

for services, construction, or items of tangible personal property that cannot be met through normal procurement methods and the lack of which would seriously threaten the functioning of government, the preservation or protection of property, or the health or safety of any person.

(4) The Finance and Administration Cabinet may negotiate directly for the purchase of contractual services, supplies, materials, or equipment in bona fide emergencies regardless of estimated costs. The existence of the emergency shall be fully explained, in writing, by the head of the agency for which the purchase is to be made. The explanation shall be approved by the secretary of the Finance and Administration Cabinet and shall include the name of the vendor receiving the contract along with any other price quotations and a written determination for selection of the vendor receiving the contract. Section 10. Whereas the immediate survival and growth of Kentucky's catfish industry and horticultural industry are in the interest of the Commonwealth, and whereas it is not necessary for the steering committee to assist in the implementation of Section 4 of this Act, an emergency is declared to exist, and Section 4 of this Act takes effect upon its passage and approval by the Governor or upon its otherwise becoming a law.

SB 179, AN ACT relating to property valuation.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Section 1. KRS 132.010 is amended to read as follows:

As used in this chapter, unless the context otherwise requires:

(1) "Cabinet" means the Revenue Cabinet.

(2) "Taxpayer" means any person made liable by law to file a return or pay a tax.

(3) "Real property" includes all lands within this state and improvements thereon.

(4) "Personal property" includes every species and character of property, tangible and intangible, other than real property.

(5) "Resident" means any person who has taken up a place of abode within this state with the intention of continuing to abide in this state; any person who has had his actual or habitual place of abode in this state for the larger portion of the twelve (12) months next preceding the date as of which an assessment is due to be made shall be deemed to have intended to become a resident of this state.

(6) "Compensating tax rate" means that rate which, rounded to the next higher one-tenth of one cent ($0.001) per one hundred dollars ($100) of assessed value and applied to the current year's assessment of the property subject to taxation by a taxing district, excluding new property and personal property, produces an amount of revenue approximately equal to that produced in the preceding year from real property. However, in no event shall the compensating tax rate be a rate which, when applied to the total current year assessment of all classes of taxable property, produces an amount of revenue less than was produced in the preceding year from all classes of taxable property. For purposes of this subsection, "property subject to taxation" means the total fair cash value of all property subject to full local rates, less the total valuation exempted from taxation by the homestead exemption provision of the Constitution and the difference between the fair cash value and agricultural or horticultural value of agricultural or horticultural land.

(7) "Net assessment growth" means the difference between:

(a) The total valuation of property subject to taxation by the county, city, school district, or special district in the preceding year, less the total valuation exempted from taxation by the homestead exemption provision of the Constitution in the current year over that exempted in the preceding year, and

(b) The total valuation of property subject to taxation by the county, city, school district, or special district for the current year.

(8) "New property" means the net difference in taxable value between real property additions and deletions to the property tax roll for the current year. "Real property additions" shall mean:

(a) Property annexed or incorporated by a municipal corporation, or any other taxing jurisdiction; however, this definition shall not apply to property acquired through the merger or consolidation of school districts, or the transfer of property from one (1) school district to another;

(b) Property, the ownership of which has been transferred from a tax-exempt entity to a nontax-exempt entity;

(c) The value of improvements to existing nonresidential property;

(d) The value of new residential improvements to property;

(e) The value of improvements to existing residential property when the improvement increases the assessed value of the property by fifty percent (50%) or more;

(f) Property created by the subdivision of unimproved property, provided, that when such property is reclassified from farm to subdivision by the property valuation administrator, the value of such property as a farm shall be a deletion from that category;

(g) Property exempt from taxation, as an inducement for industrial or business use, at the expiration of its tax exempt status;

(h) Property, the tax rate of which will change, according to the provisions of KRS 82.085, to reflect additional urban services to be provided by the taxing jurisdiction, provided, however, that such property shall be considered "real property additions" only in proportion to the additional urban services to be provided to the property over the urban services previously provided; and

(i) The value of improvements to real property previously under assessment moratorium.

"Real property deletions" shall be limited to the value of real property removed from, or reduced over the preceding year on, the property tax roll for the current year.

(9) "Agricultural land" means*:*

(a) Any tract of land, including all income-producing improvements, of at least ten (10) contiguous acres in area used for the production of livestock, livestock products, poultry, poultry products and/or the growing of tobacco and/or other crops including timber*;*

(b) Any tract of land, including all income-producing improvements, of at least five (5) contiguous acres in area commercially used for aquaculture; or

(c) Any tract of land~~[, or where]~~ devoted to and meeting the requirements and qualifications for payments pursuant to agriculture programs under an agreement with the state or federal government.

(10) "Horticultural land" means any tract of land, including all income-producing improvements, of at least five (5) contiguous acres in area commercially used for the cultivation of a garden, orchard, or the raising of fruits or nuts, vegetables, flowers, or ornamental plants.

(11) "Agricultural or horticultural value" means the use value of "agricultural or horticultural land" based upon income-producing capability and comparable sales of farmland purchased for farm purposes where the price is indicative of farm use value, excluding sales representing purchases for farm expansion, better accessibility, and other factors which inflate the purchase price beyond farm use value, if any, considering the following factors as they affect a taxable unit:

(a) Relative percentages of tillable land, pasture land, and woodland;

(b) Degree of productivity of the soil;

(c) Risk of flooding;

(d) Improvements to and on the land that relate to the production of income;

(e) Row crop capability including allotted crops other than tobacco;

(f) Accessibility to all-weather roads and markets; and

(g) Factors which affect the general agricultural or horticultural economy, such as: interest, price of farm products, cost of farm materials and supplies, labor, or any economic factor which would affect net farm income.

(12) "Deferred tax" means the difference in the tax based on agricultural or horticultural value and the tax based on fair cash value.

(13) "Homestead" means real property maintained as the permanent residence of the owner with all land and improvements adjoining and contiguous thereto including, but not limited to, lawns, drives, flower or vegetable gardens, outbuildings, and all other land connected thereto.

(14) "Residential unit" means all or that part of real property occupied as the permanent residence of the owner.

(15) "Special benefits" are those which are provided by public works not financed through the general tax levy but through special assessments against the benefited property.

(16) "Mobile home" means a structure, transportable in one (1) or more sections, which when erected on site measures eight (8) body feet or more in width and thirty-two (32) body feet or more in length, and which is built on a permanent chassis and designed to be used as a dwelling, with or without a permanent foundation, when connected to the required utilities, and includes the plumbing, heating, air-conditioning, and electrical systems contained therein. It may be used as a place of residence, business, profession, or trade by the owner, lessee, or their assigns and may consist of one (1) or more units that can be attached or joined together to comprise an integral unit or condominium structure.

(17) "Recreational vehicle" means a vehicular type unit primarily designed as temporary living quarters for recreational, camping, or travel use, which either has its own motive power or is mounted on or drawn by another vehicle. The basic entities are: travel trailer, camping trailer, truck camper, and motor home.

(a) Travel trailer: A vehicular unit, mounted on wheels, designed to provide temporary living quarters for recreational, camping, or travel use, and of such size or weight as not to require special highway movement permits when drawn by a motorized vehicle, and with a living area of less than two hundred twenty (220) square feet, excluding built-in equipment (such as wardrobes, closets, cabinets, kitchen units or fixtures) and bath and toilet rooms.

(b) Camping trailer: A vehicular portable unit mounted on wheels and constructed with collapsible partial side walls which fold for towing by another vehicle and unfold at the camp site to provide temporary living quarters for recreational, camping, or travel use.

UNOFFICIAL TRANSCRIPT - Mr. Speaker, I thank the Gentleman from Ballard for yielding to me for a few remarks about Senator Long that, unless there are objections, I 'd like these remarks spread on the record. Mr. Speaker, I'm one of the many House members who lost out in the spirited competition to be the floor manager for SB 89. When I told Charlotte the other day that I was going to be the floor manager handling this bill, she said "Oh, that's nice, you make the 8 one so far" – turning the page in her notebook, she said, "and we have 10 more names on the volunteer list." But, I do want to say a few things about my friend and my state senator, who told us last week in committee that SB 89 will probably be the last bill he will pass as a legislator.

I know I speak for all of us when I say that this sad occasion should not go unnoticed.

It might come as a surprise to some of you that Sen. Long is my state senator, but – Gentleman from Floyd – there were some "glitches' in the last re-districting bill as well as the one we passed this year. I happen to live in one of the six Jefferson County precincts that were put into Senator Long's Senate district.

If this is really true, that this is Senator Long's final bill, even though I realize it is a little early in the session for eulogies for any of our retiring members, I think it is appropriate that we take just a few minutes to say something, however inadequate, about Senator Long's outstanding 21-year term of service in the Kentucky General Assembly.

SB 89 is a typical example of the kinds of bills Sen. Long has championed in his distinguished legislative career. This bill, as the Gentleman from Ballard has told us, provides a mechanism for notifying victims of sexual assault and domestic violence that their convicted abusers have attempted to purchase a firearm. SB 89 strengthens families and protects women and children and victims of crime, sexual assault, and domestic violence.

Although I have been very proud to have Marshall Long as my State Senator the last 4 years, I am more grateful for the fact that he spent 17 of his 21-years in the General Assembly as a member of this House.

Here, in this body, along with displaying great leadership skills on a wide variety of issues, he served as Chairman of the A&R Committee and as Chairman of the Personal Services Contract Committee where, for 14 years, he has been a consistent and strong voice for opposing unnecessary spending on contracts.

While a member of this House, Marshall Long, a few years ago if you recall, was voted the No. 1 legislator in overall effectiveness and integrity in a poll taken among all legislators, lobbyists, and the Capital Press Corps. I don't recall anyone asking for a roll call vote on the results of that poll which I assure you had absolutely no margin of error whatsoever.

And let me give you just a brief example of how Sen. Long earned that ranking even outside of his many accomplishments enacted into law.

As I said previously, Sen. Long's Senate District included six of my precincts in Eastern Jefferson County. In his one and only race for the Senate in 1998, he didn't do very well at all in those precincts because they are some of the most solidly -- Republican precincts in the state. Indeed, he lost every one by a sizable margin. A lesser man perhaps would have blown off those precincts and the problems of the people living in those areas. Senator Long, of course, is not such a lesser man. Friends said of Abraham Lincoln that "he was a very poor hater" – so is Marshall Long, who proceeded to be more visible in that part of his district than most of the local public officials living in Jefferson County.

He came to every public meeting I ever had in those areas. He came to Planning and Zoning Commission Hearings. He came to neighborhood meetings in Eastwood and Lake Forest and the Polo Fields. He came to all the meetings when the future existence of the ICF/MR unit at Central State Hospital was threatened. He wrote letters and made phone calls. His constant plea to me over and over and over was "please tell me what I can do to help."

He was an active and valued member of the Jefferson County Merger Task Force and an active and valued member of the Jefferson County delegation. We in Jefferson County will miss his wise voice and counsel very much.

In closing, Mr. Speaker, I think some words first spoken by Prime Minister Winston Churchill some 60 years ago are most appropriate to describe Senator Long's distinguished 21-year record as a member of the General Assembly.

The date was Nov. 12, 1940, and Mr. Churchill was addressing the House of Commons upon the occasion of the death of his great rival and predecessor, Neville Chamberlain, and he said:

"The only guide to a man is his conscience; the only shield to his memory is the rectitude and sincerity of his actions. It is very imprudent to walk through life without this shield, because we are so mocked by the failure of our hopes; but with this shield, however the Fates may play, we march always in the ranks of honor."

The name of Marshall Long will always be indelibly etched in the ranks of honor and of all those who have been privileged to serve in the Kentucky General Assembly. Marshall Long will always be remembered by us, his peers, and by posterity, as truly one of the General Assembly's giants, one of its champions, and simply, as one of the best who ever served here.

Mr. Speaker, I also am proud to move passage of **SB 89**.

The jail staff training program shall be directed and staffed, in coordination with the Governmental Services Center at Kentucky State University, by knowledgeable persons who have sufficient experience, training, and education in jail operations. The department shall not charge a fee for training jailers, their deputies, or jailers-elect.

(2) Beginning in August, 1982, each jailer shall receive an expense allowance to help defray the costs of his participation in the jail staff training program. The expense allowance shall be in the amount of three hundred dollars ($300) per month payable out of the State Treasury. Expense allowance payments shall be discontinued if the jailer fails to satisfactorily complete annual continuing training. Expense allowance payments shall be resumed following a discontinuance for failure to satisfactorily complete basic or annual training only upon the jailer's satisfactory completion of the training.

(3) The allowance authorized in subsections (2) and (4) of this section shall be considered as operating expenses of the jailer's office and shall not be considered as part of his compensation. Jailers shall not be required to keep records verifying the expenditures from the allowance provided by the state.

(4) In order to receive the expense allowance for their first year in office, jailers who have been elected to office for the first time, shall, before taking office, successfully complete a training program designed for new jailers and conducted by the

personnel of the jail staff training program. This provision shall not apply if the jailer-elect is ill and unable to complete the training before taking office. In such cases, the jailer-elect shall successfully complete a new jailer training program during his first year in office in order to receive the expense allowance. The county or urban-county government in which the jailer-elect serves shall pay out of the jail budget, once he takes office, all necessary and reasonable travel expenses incurred by the jailer-elect in attending the new jailer training program.

(5) All jailers shall successfully complete the training required. If a jailer does not successfully complete the required training within the time specified, he shall not receive the expense allowance specified in subsection (2) of this section until he successfully completes the required training.

The Committee Substitute to **HB 768** is as follows:

HB 768, AN ACT relating to electronic gaming with related payments to the state and declaring an emergency.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

SECTION 1. KRS CHAPTER 230A IS ESTABLISHED AND A NEW SECTION THEREOF IS CREATED TO READ AS FOLLOWS:

The General Assembly hereby finds and declares that:

(1) In authorizing electronic gaming as described in this chapter, it is the purpose and intent of the General Assembly to:

(a) Provide non-state-supported financial assistance to Kentucky's horse racing and breeding industry in the form of new revenues generated by the operation of electronic gaming devices, which will enable the industry to create new jobs, encourage investment, and promote excellence in racing through higher purses for horsemen, renovation, and modernization of the state's aging racetracks;

(b) Restrict the operation of electronic gaming devices to the state's existing racetracks where wagering is already permitted and the requisite controls exist; and

(c) Provide for greater integrity, consistency, economy and efficiency by requiring that the Gaming Commission created under this chapter be an independent entity, but a part of and under the supervision of the Kentucky Lottery Corporation created under KRS Chapter 154A.

(2) The operation of electronic gaming devices as described in this chapter will generate substantial new revenue for state government so that state government can better serve the needs of the citizens of this state;

(3) The horse racing industry in Kentucky provides a valuable tourism resource for the Commonwealth and provides significant economic benefits to the citizens of this state through the provisions of jobs and the generation of state revenues;

(4) This valuable tourism resource is facing serious economic harm from competition resulting from increased gaming opportunities in neighboring states, including riverboat casinos and video lottery gaming. The operation of electronic gaming devices at certain facilities in this state would allow the racing industry to more effectively compete with out-of-state gaming to keep racing viable and protect the substantial economic contribution the racing industry makes to the Commonwealth;

(5) The General Assembly recognizes the need to protect the public against a statewide proliferation of gaming;

(6) The racing industry currently operates in limited areas of the Commonwealth where pari-mutuel wagering has been accepted, and the operation of additional gaming options exclusively at existing racetracks would not conflict with established community moral standards;

(7) The playing of electronic gaming devices as described in this chapter will be limited to persons twenty-one (21) years or older;

(8) The Gaming Commission, under the supervision of the Kentucky Lottery Corporation, will provide the expertise necessary to oversee the operation of electronic gaming devices in an efficient and effective manner;

(9) The racing industry has extensive experience and expertise in the management of gaming activities, which assures that electronic gaming devices will be operated with honesty and integrity;

(10) To create and maintain public confidence and trust in the integrity of electronic gaming device gaming, the regulatory provisions of this chapter are designed to extend strict regulation by the Gaming Commission to all persons involved in the operation of electronic gaming devices and the manufacturers and distributors of electronic gaming devices and associated equipment; and

(11) The racing industry has extensive experience and expertise in the development and operation of first-class entertainment facilities, including food and other amenities, which ensures that the operation of electronic gaming devices by licensed racetracks as described in this chapter will create additional economic development and provide competition for out-of-state gaming that will promote the racing and tourism industries in the state and will generate substantial revenue for the state and the racing industry.

SECTION 2. A NEW SECTION OF KRS CHAPTER 230A IS CREATED TO READ AS FOLLOWS:

As used in this chapter, unless the context requires otherwise:

(11) The notice shall include a copy of any prehearing order rendered in the matter.

(12) To the extent not included in a prehearing order accompanying it, the notice shall include:

- *(a) The names and mailing addresses of all parties and other persons to whom notice is being given by the presiding officer;*
- *(b) The name, official title, mailing address, and telephone number of any counsel or employee who has been designated to appear for the Gaming Commission.*
- *(c) The official file or other reference number, the name of the proceeding, and a general description of the subject matter;*

- *(e) A statement of the legal authority and jurisdiction under which the hearing is to be held;*
- *(f) The name, official title, mailing address, and telephone number of the presiding officer;*
- *(g) A statement of the issues involved and, to the extent known to the presiding officer, of the matters asserted by the parties; and*
- *(h) A statement that a party who fails to attend or participate in a hearing, or other stage of an adjudicative proceeding, may be held in default under this chapter.*

(13) The notice may include any other matters the presiding officer considers desirable to expedite the proceedings.

(14) The Gaming Commission shall give notice to persons entitled to notice under any provision of law who have not been given notice by the presiding officer. Notice under this subsection may include all types of information provided in subsections (10) to (13) of this section or may consist of a brief statement indicating the subject matter, parties, time, place, and nature of the hearing, manner in which copies of the notice to the parties may be inspected and copied, and name and telephone number of the presiding officer.

(15) The presiding officer, at appropriate stages of the proceedings, shall give all parties full opportunity to file pleadings, motions, objections, and offers of settlement.

(16) The presiding officer, at appropriate stages of the proceedings, may give all parties full opportunity to file briefs, proposed findings of fact and conclusions of law, and proposed initial or final orders.

(17) A party shall serve copies of any filed item on all parties, by mail or any other means described by Gaming Commission rule.

(18) If a party fails to attend or participate in a hearing, or other stage of an adjudicative proceeding, the presiding officer may serve upon all parties written notice of a proposed default order, including a statement of the grounds.

(19) Within seven (7) days after service of a proposed default order, the party against whom it was issued may file a written motion requesting that the proposed default order be vacated and stating the grounds relied upon. During the time within which a party may file a written motion under this subsection, the presiding officer may adjourn the proceedings or conduct them without the participation of the party against whom a proposed default order was issued, having due regard for the interests of justice and the orderly and prompt conduct of the proceedings.

(20) The presiding officer shall either issue or vacate the default order promptly after expiration of the time within which the party may file a written motion under subsection (19) of this section.

(21) After issuing a default order, the presiding officer shall conduct any further proceedings necessary to complete the adjudication without the participation of the party in default and shall determine all issues in the adjudication, including those affecting the defaulting party.

(22) The presiding officer shall grant a petition for intervention if:

- *(a) The petition is submitted in writing to the presiding officer, with copies mailed to all parties named in the presiding officer's notice of the hearing, at least three (3) days before the hearing;*
- *(b) The petition states facts demonstrating that the petitioner's legal rights, duties, privileges, immunities, or other legal interests may be substantially affected by the proceeding or that the petitioner qualifies as an intervener under any provision of law; and*
- *(c) The presiding officer determines that the interests of justice and the orderly and prompt conduct of the proceedings will not be impaired by allowing the intervention.*

(23) The presiding officer may grant a petition for intervention at any time, upon determining that the intervention sought is in the interests of justice and will not impair the orderly and prompt conduct of the proceedings.

(24) If a petitioner qualifies for intervention, the presiding officer may impose conditions upon the intervener's participation in the proceedings, either at the time that intervention is granted or at any subsequent time. Conditions may include:

- *(a) Limiting the intervener's participation to designated issues in which the intervener has a particular interest demonstrated by the petitioner;*
- *(b) Limiting the intervener's use of discovery, cross-examination, and other procedures so as to promote the*

(25) The presiding officer, at least twenty-four (24) hours before the hearing, shall issue an order granting or denying each pending petition for intervention, specifying any conditions, and briefly stating the reasons for the order. The presiding officer may modify the order at any time, stating the reasons for the modification. The presiding officer shall promptly give notice of an order granting, denying, or modifying intervention to the petitioner for intervention and to all parties.

(26) The presiding officer may issue subpoenas, discovery orders, and protective orders, in accordance with the Kentucky Rules of Civil Procedure.

(27) Subpoenas and orders issued under this section may be enforced pursuant to the provisions of this chapter on civil enforcement of commission action.

SECTION 20. A NEW SECTION OF KRS CHAPTER 230A IS CREATED TO READ AS FOLLOWS:

At a formal hearing, the following procedures shall apply:

(1) The presiding officer shall regulate the course of the proceedings in conformity with any prehearing order.

(2) To the extent necessary for full disclosure of all relevant facts and issues, the presiding officer shall afford to all parties the opportunity to respond, present evidence and argument, conduct cross-examination, and submit rebuttal evidence, except as restricted by a limited grant of intervention or by the prehearing order.

(3) The presiding officer may give a nonparty an opportunity to present oral or written statements. If the presiding officer proposes to consider a statement by a nonparty, the presiding officer shall give all parties an opportunity to challenge or rebut it and, on motion of any party, the presiding officer shall require the statement to be given under oath or affirmation.

(4) The presiding officer may conduct all or part of the hearing by telephone, television, or other electronic means, if each participant in the hearing has an opportunity to participate in, to hear, and, if technically feasible, to see the entire proceeding while it is taking place.

(5) The presiding officer shall cause the hearing to be recorded at the Gaming Commission's expense. The Gaming Commission is not required, at its expense, to prepare a transcript, unless required to do so by a provision of law. Any party, at the party's expense, may cause a reporter approved by the Gaming Commission to prepare a transcript from the Gaming Commission's record, or cause additional recordings to be made during the hearing if the making of the additional recordings does not cause distraction or disruption.

(6) The hearing shall be open to public observation, except for the parts that the presiding officer states to be closed pursuant to a provision of law expressly authorizing closure. No hearing shall be conducted by telephone, television, or other electronic means, unless provisions are made for simultaneous electronic public access or public observation of the meeting.

(7) Upon proper objection, the presiding officer shall exclude evidence that is irrelevant, immaterial, unduly repetitious, or excludable on constitutional or statutory grounds or on the basis of evidentiary privilege recognized in the courts of this Commonwealth. In the absence of proper objection, the presiding officer may exclude objectionable evidence. Evidence may not be excluded solely because it is hearsay.

(8) All testimony of parties and witnesses shall be made under oath or affirmation.

(9) Statements presented by a nonparty in accordance with subsection (3) of this section may be received as evidence.

(10) Any part of the evidence may be received in written form if doing so will expedite the hearing without substantial prejudice to the interests of any party.

(11) Documentary evidence may be received in the form of a copy or excerpt. Upon request, parties may be given an opportunity to compare the copy with the original if available.

(12) (a) Official notice may be taken of:

1. Any fact that could be judicially noticed in the courts of this state;

2. The record of other proceedings before the Gaming Commission;

3. Technical or scientific matters within the Gaming Commission's specialized knowledge; and

4. Codes or standards that have been adopted by an agency of the United States, of this state or of another state, or by a nationally recognized organization or association.

(b) Parties shall be notified before or during the hearing, or before the issuance of any final order that is based in whole or in part on facts or material noticed, of the specific facts or material noticed and the source thereof, including any staff memoranda and data, and shall be afforded an opportunity to contest and rebut the facts or material so noticed.

(13) Except as provided in subsection (14) of this section or unless required for the disposition of ex parte matters specifically authorized by statute, a presiding officer serving in an adjudicative proceeding shall not communicate, directly or indirectly, regarding any issue in the proceeding, while the proceeding is pending, with any party, with any

person who has a direct or indirect interest in the outcome of the proceeding, or with any person who presided at a previous stage of the proceeding, without notice and opportunity for all parties to participate in the communication.

(14) A member of a multimember panel of presiding officers may communicate with other members of the panel regarding a matter pending before the panel, and any presiding officer may receive aid from staff assistants if the assistants do not:

(a) Receive ex parte communications of a type that the presiding officer would be prohibited from receiving; or

(b) Furnish, augment, diminish, or modify the evidence in the record.

(15) Unless required for the disposition of ex parte matters specifically authorized by statute, no party to an adjudicative proceeding, and no person who has a direct or indirect interest in the outcome of the proceeding or who presided at a previous stage of the proceeding, shall communicate, directly or indirectly, in connection with any issue in that proceeding, while the proceeding is pending, with any person serving as presiding officer, without notice and opportunity to all parties to participate in the communication.

(16) If, before serving as presiding officer in an adjudicative proceeding, a person receives an ex parte communication of a type that would not properly be received while serving, the person, promptly after starting to serve, shall disclose the communication in the manner prescribed in subsection (17) of this section.

(17) A presiding officer who receives an ex parte communication in violation of this section shall place on the record of the pending matter all written communications received, all written responses to the communications, and a memorandum stating the substance of all oral communications received, all responses made, and the identity of each person from whom the presiding officer received an ex parte communication, and shall advise all parties that these matters have been placed on the record. Any party desiring to rebut the ex parte communication shall be allowed to do so, upon requesting the opportunity for rebuttal within ten (10) days after notice of the communication.

(18) If necessary to eliminate the effect of an ex parte communication received in violation of this section, a presiding officer who receives the communication may be disqualified and the portions of the record pertaining to the communication may be sealed by protective order.

(19) The Gaming Commission shall, and any party may, report any willful violation of this section to appropriate authorities for any disciplinary proceedings provided by law. In addition, the Gaming Commission by rule may provide for appropriate sanctions, including default, for any violations of this section.

(20) Upon recommendation by the presiding officer, the Gaming Commission shall render a final order. The final order shall include, separately stated, findings of fact, conclusions of law, and policy reasons for the decision if it is an exercise of the Gaming Commission's discretion, for all aspects of the order, including the remedy prescribed and, if applicable, the action taken on a petition for stay of effectiveness. Findings of fact, if set forth in language that is more than mere repetition or paraphrase of the relevant provision of law, shall be accompanied by a concise and explicit statement of the underlying facts of record to support the findings. If a party has submitted proposed findings of fact, the order shall include a ruling on the proposed findings. The order shall also include a statement of the available procedures and time limits for seeking reconsideration or other administrative relief.

(21) Findings of fact shall be based exclusively upon the evidence of record in the adjudicative proceeding and on matters officially noticed in that proceeding. Findings shall be based upon the kind of evidence on which reasonably prudent persons are accustomed to rely in the conduct of their serious affairs and may be based upon such evidence even if it would be inadmissible in a civil trial. The presiding officer's experience, technical competence, and specialized knowledge may be utilized in evaluating evidence.

(22) If a person serving or designated to serve as presiding officer becomes unavailable, for any reason, before rendition of the final order or initial order, a substitute presiding officer shall be appointed as provided in subsection (5) of Section 19 of this Act. The substitute presiding officer shall use any existing record and may conduct any further proceedings appropriate in the interests of justice.

(23) The presiding officer may allow the parties a designated amount of time after conclusion of the hearing for the submission of proposed findings.

(24) A final order pursuant to this section shall be rendered in writing within ninety (90) days after conclusion of the hearing or after submission of proposed findings in accordance with subsection (23) of this section unless this period is waived or extended with the written consent of all parties or for good cause shown.

(25) The presiding officer shall cause copies of the final order or initial order to be delivered to each party and to the Gaming Commission.

SECTION 21. A NEW SECTION OF KRS CHAPTER 230A IS CREATED TO READ AS FOLLOWS:

(1) A party may submit to the presiding officer a petition for stay of effectiveness of a final order within seven (7) days after its rendition unless otherwise provided by statute or stated in the final order. The presiding officer may take action on the petition for stay, either before or after the effective date of the final order.

(2) Unless otherwise provided by statute or rule:

(a) Any party, within ten (10) days after rendition of a final order, may file a petition for reconsideration, stating the specific grounds upon which relief is requested. The filing of the petition is not a prerequisite for seeking

administrative or judicial review.

(b) The petition shall be disposed of by the same person or persons who rendered the final order, if available.

(c) The presiding officer shall render a written order denying the petition, granting the petition and dissolving or modifying the final order, or granting the petition and setting the matter for further proceedings. The petition may be granted, in whole or in part, only if the presiding officer states, in the written order, findings of fact, conclusions of law and policy reasons for the decision, if it is an exercise of the Gaming Commission's discretion, to justify the order. The petition shall be deemed to have been denied if the presiding officer does not dispose of it within twenty (20) days after the filing of the petition.

SECTION 22. A NEW SECTION OF KRS CHAPTER 230A IS CREATED TO READ AS FOLLOWS:

(1) Unless a later date is stated in a final order or a stay is granted, a final order shall be effective ten (10) days after rendition, but:

(a) A party shall not be required to comply with a final order unless the party has been served with or has actual knowledge of the final order; and

(b) A nonparty shall not be required to comply with a final order unless the agency has made the final order available for public inspection and copying or the nonparty has actual knowledge of the final order.

(2) Unless a later date is stated in an initial order or a stay is granted, the time when an initial order becomes a final order shall be determined as follows:

(a) When the initial order is rendered, if administrative review is unavailable;

(b) When the Gaming Commission renders an order stating, after a petition for appeal has been filed, that review will not be exercised, if discretion is available to make a determination to this effect; or

(c) Ten (10) days after rendition of the initial order, if no party has filed a petition for appeal and the Gaming Commission has not given written notice of its intention to exercise review.

(3) Unless a later date is stated in an initial order or a stay is granted, an initial order that becomes a final order shall be effective ten (10) days after becoming a final order, but:

(a) A party shall not be required to comply with the final order unless the party has been served with or has actual knowledge of the initial order or of an order stating that review will not be exercised; and

(b) A nonparty shall not be required to comply with the final order unless the Gaming Commission has made the initial order available for public inspection and copying or the nonparty has actual knowledge of the initial order or of an order stating that review will not be exercised.

(4) This section does not preclude the Gaming Commission from taking immediate action to protect the public interest in accordance with Section 24 of this Act.

SECTION 23. A NEW SECTION OF KRS CHAPTER 230A IS CREATED TO READ AS FOLLOWS:

(1) The Gaming Commission shall maintain an official record of each adjudicative proceeding under this chapter.

(2) The official record consists only of:

(a) Notices of all proceedings;

(b) Any prehearing order;

(d) Evidence received or considered;

(e) A statement of matters officially noticed;

(f) Proffers of proof and objections and rulings thereon;

(g) Proposed findings, requested orders, and exceptions;

(h) The record prepared for the presiding officer at the hearing, together with any transcript of all or part of the hearing considered before final disposition of the proceeding;

(i) Any final order, initial order, or order on reconsideration;

(j) Staff memoranda or data submitted to the presiding officer, unless prepared and submitted by personal assistants and not inconsistent with subsection (14) of Section 20 of this Act; and

(k) Matters placed on the record after an ex parte communication.

(3) Except to the extent that this chapter or another statute provides otherwise, the official record constitutes the exclusive basis for commission action in adjudicative proceedings under this chapter and for judicial review thereof.

SECTION 24. A NEW SECTION OF KRS CHAPTER 230A IS CREATED TO READ AS FOLLOWS:

The Gaming Commission may issue an emergency order for suspension, limitation, or conditioning of a license or may issue an emergency order requiring a licensed electronic gaming establishment to keep any individual licensee from the premises of the licensed electronic gaming establishment or not to pay that licensee any remuneration for services or any profits, income, or accruals on his or her investment in the licensed electronic gaming establishment in the following manner:

(1) An emergency order may be issued only when the Gaming Commission believes that:

(a) Any licensee has willfully failed to report, pay, or truthfully account for and pay over any fee imposed by the provisions of this chapter or willfully attempted in any manner to evade or defeat any such fee or payment thereof;

(b) Any licensee or electronic gaming device employee has cheated at any electronic gaming device game; or

(c) This action is necessary for the immediate preservation of the public peace, health, safety, morals, good order, or general welfare.

(2) The emergency order shall set forth the grounds upon which it is issued, including a statement of facts constituting the alleged emergency necessitating such action.

(3) An emergency order may be issued only with the approval of and upon signature by not less than three (3) members of the Gaming Commission.

(4) The emergency order shall be effective immediately upon issuance and service upon the licensee or resident agent of the licensee or electronic gaming employee. The emergency order may suspend, limit, condition, or take other action in relation to the license of one or more persons in an operation without affecting other individual licensees or the licensed electronic gaming establishment. The emergency order shall remain effective until further order of the Gaming Commission or final disposition of the case.

(5) Within five (5) days after issuance of an emergency order, the executive director shall cause a complaint to be filed and served upon the person or entity involved. Thereafter, the person or entity against whom the emergency order has been issued and served shall be entitled to a hearing before the Gaming Commission in accordance with the provisions of Section 19 and Section 20 of this Act; and to judicial review of the decision and order of the commission thereon in accordance with the provisions of Section 25 of this Act.

SECTION 25. A NEW SECTION OF KRS CHAPTER 230A IS CREATED TO READ AS FOLLOWS:

Any licensee or any applicant aggrieved by any order of the Gaming Commission may appeal to the Franklin Circuit Court within the time and in the manner provided by KRS 13B.140, 13B.150, and 13B.160.

SECTION 26. A NEW SECTION OF KRS CHAPTER 230A IS CREATED TO READ AS FOLLOWS:

(1) The Gaming Commission shall by administrative regulation provide for the establishment of a list of persons who are to be excluded or ejected from any licensed electronic gaming establishment. The list may include any person whose presence in the establishment is determined by the Gaming Commission to pose a threat to the interests of this state or to licensed electronic gaming or both.

(2) (a) In making the determination under this section, the Gaming Commission may consider whether the person:

1. Has been convicted of any violation of this chapter or any crime constituting a felony related to theft, bribery, or gambling, unless at least ten (10) years have passed since satisfactory completion of the sentence or probation imposed by the court for each conviction;

2. Has been convicted of any illegal gambling activity in this or any other jurisdiction, unless at least ten (10) years have passed since satisfactory completion of the sentence or probation imposed by the court for each conviction; or

(b) Race, color, creed, national origin, ancestry, or sex shall not be grounds for placing the name of a person upon the list identified in this section.

(3) In addition to the foregoing, each electronic gaming licensee shall have the common law right to exclude or eject patrons or others, whether licensed, registered, or otherwise approved under this chapter, from the licensee's gaming establishment. The commission shall be notified of any such exclusion or ejection within three (3) days of such actions.

SECTION 27. A NEW SECTION OF KRS CHAPTER 230A IS CREATED TO READ AS FOLLOWS:

When requested by the Gaming Commission, the Attorney General of the Commonwealth of Kentucky, or such assistant attorney general as he or she may designate, shall, without additional compensation, advise the Gaming Commission and represent it in all legal proceedings.

SECTION 28. A NEW SECTION OF KRS CHAPTER 230A IS CREATED TO READ AS FOLLOWS:

(1) The Gaming Commission shall adopt such administrative regulations governing the operation of electronic gaming devices consistent with the provisions of this chapter as the Gaming Commission deems necessary in order that the operation of electronic gaming devices shall be initiated at the earliest feasible time after the effective date of this Act and shall produce the maximum amount of gaming income consistent with the dignity of the state and the protection of the public. The administrative regulations shall provide for all matters necessary for the secure, fair, efficient, and economical operation of electronic gaming devices consistent with the provisions of this chapter, including but not limited to the following:

(a) Licensing of electronic gaming device operators, electronic gaming device operations managers, electronic

(2) In adopting, amending, or repealing administrative regulations, the Gaming Commission shall comply with the provisions of KRS Chapter 13A.

SECTION 29. A NEW SECTION OF KRS CHAPTER 230A IS CREATED TO READ AS FOLLOWS:

(1) Any other provision of law to the contrary notwithstanding, the Gaming Commission is authorized to implement and regulate the operation of electronic gaming devices exclusively by eligible associations at licensed racetracks at certain pari-mutuel racing facilities in this state in accordance with the provisions of this chapter. The Gaming Commission shall oversee the operation of electronic gaming devices to ensure that all applicable laws are administered for the protection of the public in accordance with the provisions of this chapter.

(2) The Gaming Commission, in addition to any other powers granted by this chapter, shall have the powers necessary and proper to carry out and effectuate the provisions of this chapter relating to electronic gaming devices, including the power to:

(b) Link all electronic gaming devices to the Gaming Commission's central computer system to transmit relevant data using procedures approved by the Gaming Commission. The central computer system used by the Gaming Commission may not limit participation to only one (1) manufacturer of electronic gaming devices, and in no event shall any manufacturer account for more than fifty percent (50%) of available electronic gaming device games presented for play by any electronic gaming device operator;

(c) Employ necessary personnel to effectively carry out its responsibilities under this chapter;

SECTION 30. A NEW SECTION OF KRS CHAPTER 230A IS CREATED TO READ AS FOLLOWS:

(1) An electronic gaming device manufacturer and a electronic gaming device distributor may not sell, lease, or otherwise transfer an electronic gaming device or associated equipment for placement at a licensed racetrack in this state unless the electronic gaming device and associated equipment have been approved by the Gaming Commission. Only electronic gaming device manufacturers or electronic gaming device operators may apply for approval of an electronic

gaming device or associated equipment. The electronic gaming device manufacturer or the electronic gaming device operator shall submit to the Gaming Commission two (2) copies of electronic gaming device illustrations, schematics, block diagrams, circuit analysis, technical and operation manuals, and any other information requested by the Gaming Commission for the purpose of analyzing and testing the electronic gaming device or associated equipment.

(2) An electronic gaming device manufacturer or electronic gaming device operator which applies for approval as described in subsection (1) of this section shall pay all costs of testing, examination, analysis, and transportation of the prototypes of electronic gaming devices and associated equipment for which such application is made. The Gaming Commission may require that the electronic gaming device manufacturer or electronic gaming device operator provide specialized equipment or pay for the services of an independent technical expert to conduct the tests. If any electronic gaming device or associated equipment fails the acceptance test conducted by the Gaming Commission, the electronic gaming device manufacturer shall make all modifications required by the Gaming Commission.

(3) Each electronic gaming device and associated equipment approved for placement at a licensed racetrack shall conform to the exact specifications of the prototype tested and approved by the Gaming Commission. An electronic gaming device manufacturer or electronic gaming device operator shall not change the assembly or operational functions of an electronic gaming device or associated equipment licensed for placement in this state unless a request for modification of an existing prototype is approved by the Gaming Commission. The request shall contain a detailed description of the type of change, the reasons for the change, and technical documentation of the change. If any electronic gaming device or associated equipment which has not been approved by the Gaming Commission is supplied by a manufacturer and operated by a licensed racetrack, the Gaming Commission shall direct that the use of that licensed racetrack's and manufacturer's noncomplying electronic gaming devices and associated equipment cease immediately.

(4) In those cities, counties, urban-county governments, charter county governments, or consolidated local governments which have engaged in planning operations pursuant to KRS Chapter 100, facilities developed for the activities contemplated by this chapter shall be deemed to be permitted accessory uses to licensed racetracks without further approval from the applicable planning unit or body whether or not such facilities are specifically cited in the applicable zoning regulations. These facilities shall also be deemed to be permitted uses in all zones in which the applicable zoning regulations allow licensed racetracks, subject only to the permitting requirements and conditions upon which racetracks are allowed, whether or not these facilities are specifically cited in such regulations and whether or not these facilities are located on the same premises as a licensed racetrack.

(5) No racetrack shall engage in electronic gaming under the provisions of this chapter, nor shall any racetrack qualify to be licensed as an electronic gaming device operator, if any person having an ownership interest in that racetrack sells property, goods, or services related to electronic gaming to eligible associations, to the Kentucky Lottery Corporation under KRS Chapter 154A, or to electronic gaming device operators under this chapter.

SECTION 31. A NEW SECTION OF KRS CHAPTER 230A IS CREATED TO READ AS FOLLOWS:

(1) Application for any license under this chapter shall be made to the Gaming Commission on forms furnished by the Gaming Commission and in accordance with administrative regulations adopted by the Gaming Commission. Not later than fifteen (15) days after the effective date of this Act, the Gaming Commission shall have taken all actions necessary to furnish application forms to applicants, and to cause the Gaming Commission and its staff to be prepared to receive, process, and act upon these applications.

(2) The application for a license shall include:

(a) The name of the proposed licensee;

(b) In the case of an electronic gaming device operator, the location of the proposed operation;

(c) In the case of an electronic gaming device operator, the electronic gaming devices to be operated; and

(d) Such other information and details as the Gaming Commission may require.

(3) The Gaming Commission shall furnish to the applicant supplemental forms which the applicant shall complete and file with the application. The supplemental forms shall require, but shall not be limited to, complete information and details with respect to the applicant's criminal record, business activities, financial affairs and business associates, covering at least a ten (10) year period immediately preceding the date of filing of the application.

(4) In the case of an electronic gaming device operator, the applicant shall also submit to the Gaming Commission a copy of the application previously submitted to the Racing Commission for licensure as a racetrack under KRS Chapter 230, and a copy of the license that was subsequently issued by the Racing Commission, and the Gaming Commission shall keep confidential all matters or material contained therein required to be kept confidential by the Racing Commission pursuant to KRS Chapter 230.

(5) Upon a determination by the Gaming Commission of the suitability of the applicant based on criteria established in this chapter, the Gaming Commission shall issue the requested license.

SECTION 32. A NEW SECTION OF KRS CHAPTER 230A IS CREATED TO READ AS FOLLOWS:

(1) No license shall be granted under this chapter unless the Gaming Commission has determined that the applicant satisfies all of the following qualifications:

(a) An applicant for a electronic gaming device operator license shall be an eligible association which holds a valid

license as a racetrack under KRS Chapter 230;

(b) An applicant for any license under this chapter shall be a person of good character and integrity;

(c) An applicant for any license under this chapter shall be a person whose background, including criminal record, reputation, and associations, does not pose a threat to the security and integrity of electronic gaming device games or to the public interest of the state. All new applicants for licenses issued by the Gaming Commission shall furnish fingerprints for a national criminal records check by the Gaming Commission or its division of security and the Federal Bureau of Investigation. Investigative assistance may be provided by the Kentucky State Police in accordance with subsection (2)(d) of Section 29 of this Act. Fingerprints shall be furnished by all persons required to be named in the application and shall be accompanied by a signed authorization for the release of information by the Kentucky State Police and the Federal Bureau of Investigation. The Gaming Commission shall revoke the license of any person who is convicted of any of the violations or crimes referenced in this subsection;

(d) No applicant shall be granted a license under this chapter who:

1. Has been convicted of any violation of this chapter or any crime constituting a felony related to theft, bribery, or gambling, unless at least ten (10) years have passed since satisfactory completion of the sentence or probation imposed by the court for each conviction;

2. Has been convicted of any illegal gambling activity in this or any other jurisdiction, unless at least ten (10) years have passed since satisfactory completion of the sentence or probation imposed by the court for each conviction; or

3. Has made a statement of material fact to the Gaming Commission, knowing such statement to be false, unless at least ten (10) years have passed since the statement was made.

(e) An applicant for any license under this chapter shall demonstrate the business ability and experience necessary to establish, operate, and maintain the business for which the license application is made which, with respect to an electronic gaming device operator, may be demonstrated through the retention of an electronic gaming device operations manager;

(f) An applicant for any license under this chapter shall have secured adequate financing for the business for which the license application is made. The Gaming Commission shall determine whether financing is adequate to support the successful performance of the duties and responsibilities of the licensee. (4) Applications for licenses shall be made in the form, in the manner, and contain information as the commission may, by

administrative regulation, require. Fees for all licenses issued under KRS 230.310 ***or KRS Chapter 230A*** shall be prescribed by and paid to the commission;

(5) The commission shall establish by administrative regulation minimum fees for jockeys to be effective in the absence of a contract between an employing owner or trainer and a jockey. The minimum fees shall be no less than those of July 1, 1985;

Every person not required to be licensed under KRS 230.300 who desires to participate in horse racing in the Commonwealth as a horse owner, trainer, jockey, apprentice jockey, agent, stable employee, racing official, association employee, or employee of a person or concern contracting with the association to provide a service or commodity and which requires their presence on association grounds during a race meeting, or veterinarian, farrier, horse dentist, or supplier of food, tack, medication, or horse feed, ***or electronic gaming device employee as defined in subsection (6) of Section 2 of this Act,*** shall first apply to the commission for a license to participate in the activity on association grounds during a race meeting. No person required to be licensed by this section may participate in any activity required to be licensed on association grounds during a race meeting without a valid license therefor. An applicant for a license shall submit to the commission fingerprints as may be required and other information necessary and reasonable for processing a license application. The commission is authorized to exchange fingerprint data with the Kentucky State Police and the Federal Bureau of Investigation in order to conduct a criminal history background check of an applicant. The commission may issue a license if it finds that the financial responsibility, age, experience, reputation, competence, and general fitness of the applicant to perform the activity permitted by a license, are consistent with the best interest of racing and the maintenance of the honesty, integrity, and high quality thereof. A license shall be issued for the calendar year in which it is issued and may be renewed by the commission. The license shall be valid at all horse race meetings in the Commonwealth during the period for which it is issued unless suspended or revoked under the administrative regulations promulgated by the commission under this chapter. With respect to horse owners and trainers, the commission may promulgate administrative regulations to facilitate and promote uniform, reciprocal licensing with other states.

Section 46. KRS 230.377 is amended to read as follows:

(1) Other provisions of the Kentucky Revised Statutes notwithstanding, a track may apply to the commission for simulcasting and intertrack wagering dates. Applications shall be submitted in accordance with KRS 230.300. The commission shall not approve the establishment or relocation of a receiving track within a radius of seventy-five (75) miles of a race track duly licensed as of July 15, 1992, without the prior written consent of the licensed track within whose seventy-five (75) mile radius the new receiving track would be located.

(2) On or before November 1 of each year, the commission shall meet and award intertrack wagering dates to all tracks for the entire succeeding calendar year. In a geographic area containing more than one (1) track within a fifty (50) mile radius of another track, intertrack wagering shall be limited to simulcasting and wagering on racing of the same breed of horse as the receiving track was licensed to race on or before July 15, 1998.

(3) The commission shall approve no more than nine (9) tracks for participation in horse racing, intertrack wagering, and simulcasting. Any approval by the commission of a change in location of these tracks shall be subject to the local-approval process contained in KRS 230.380.

(4) A track may by administrative regulation be required to simulcast its races to one (1) or more receiving tracks approved for simulcasting and intertrack wagering, as a prerequisite for the issuance of a license pursuant to KRS 230.300, provided that:

(a) Each track shall be permitted to exempt one (1) day of racing from simulcasting to both receiving tracks and simulcast facilities, at its discretion;

(b) Tracks in a county containing a city of the first class ***or a consolidated local government*** and tracks in an urban-county government shall not be required to simulcast to each other or to any other facility in those counties. This provision shall not be construed as requiring tracks within the same county to simulcast to each other; and

(c) In the absence of a contract between a host track and a receiving track, the commission shall be split as provided for in KRS 230.378(3).

(5) A track may receive simulcasts and conduct interstate wagering thereon subject to the following limitations which shall be in addition to the limitations set forth in KRS 230.3771:

(a) A track licensed to conduct thoroughbred racing may receive simulcasts and conduct interstate wagering on all thoroughbred horse races designated as graded stakes races by the Graded Stakes Committee of the Thoroughbred Owners and Breeders Association, Inc., without further consents or approvals.

(b) A track licensed to conduct harness racing may receive simulcasts and conduct interstate wagering on all harness horse races (both final and elimination) having a final purse in excess of seventy-five thousand dollars ($75,000) without further consents or approvals.

(c) A track which applies to the commission to receive an interstate race of a different breed than the breed for which it is licensed by the commission shall receive any simulcast of an interstate race through the intertrack wagering system upon approval by the commission. ***Notwithstanding the foregoing, a track licensed to conduct horse racing may receive simulcasts and conduct interstate wagering on quarter horse races, subject to the limitations of Section 47 of this Act.***

(d) A track may receive simulcasts of special event races conducted in other states or foreign countries which are determined by the commission to be of sufficient national or international significance or interest to warrant interstate wagering and if the simulcast of these races has been approved by the Kentucky Thoroughbred Owners and Breeders Association, Inc., the Kentucky Division of the Horseman's Benevolent and Protective Association, for thoroughbred races, and the Kentucky Harness Horsemen's Association for harness racing, and any track conducting live horse races of the same breed at the same time as the simulcast race.

(e) A track may also receive simulcasts and conduct interstate wagering on thoroughbred horse races other than those described in paragraphs (a) and (d) of this section if the simulcast of these races has been approved by the Kentucky Thoroughbred Owners and Breeders Association, Inc., and the Kentucky Horsemen's Benevolent and Protective Association, for thoroughbred races, and the Kentucky Harness Horsemen's Association, or its successor, for harness racing.

(f) The consent required by paragraph (e) of this subsection or by subsections (1)(g) and (2)(g) of KRS 230.3771 shall not be withheld:

1. For any reason not specifically related to financial harm to live horse racing; or

2. As a condition to the granting of any contractual or other concession not specifically related to the effects of interstate simulcasting on live horse racing in this Commonwealth, taken as a whole.

(g) A host track located in this state may receive simulcasting of not more than two (2) full cards of racing from another state, if both tracks race horses of the same breed and if:

1. The race date was previously granted by the Kentucky Racing Commission to conduct live racing at the track located in this state;

2. Live racing was canceled due to weather conditions; and

3. The consent required by subsection (5)(d) of this section is obtained.

(h) The in-state track receiving the simulcast specified in paragraph (g) of this subsection shall offer that simulcast to all participating tracks and simulcast facilities in the intertrack wagering system.

(i) All interstate simulcasting shall be conducted in accordance with applicable federal laws.

(6) The commission may promulgate necessary and reasonable administrative regulations for the purpose of administering the conduct of intertrack or interstate wagering and regulating the conditions under which wagering shall be held and conducted. Administrative regulations shall provide for the prevention of practices detrimental to the public interest and to impose penalties for violations. All administrative regulations shall be in conformity with the provisions of KRS Chapter 13A, KRS 138.510, and this chapter.

(7) Subsections (2) and (3) of this section shall apply only to intertrack wagering dates awarded for calendar year 1993 and thereafter, and any unresolved intertrack wagering dates for calendar year 1992 shall be awarded pursuant to applicable provisions of law in effect immediately prior to March 30, 1992.

Section 47. KRS 230.3771 is amended to read as follows:

(1) A thoroughbred track licensed to conduct thoroughbred racing may receive interstate simulcasts of thoroughbred horse races and conduct interstate wagering thereon, subject to the following limitations:

(a) A thoroughbred receiving track may receive interstate simulcasts of thoroughbred races and conduct interstate wagering thereon at any time of day and during any live thoroughbred horse race meet conducted in the Commonwealth of Kentucky so long as the thoroughbred receiving track conducting interstate wagering remits to the thoroughbred host track conducting a live meet, from the first awarded day of its live meet through the last awarded day of the same live meet, the amounts provided in paragraph (j) of this subsection.

(b) A thoroughbred host track which receives interstate simulcasts and conducts interstate wagering thereon during the period of time from the first awarded day of its live meet through the last awarded day of its live meet shall offer the simulcasts to all thoroughbred receiving tracks, all harness tracks not subject to the provisions of KRS 230.377(2), and all simulcast facilities through the intertrack wagering system.

(c) Except as otherwise prohibited by law, a receiving track shall conduct intertrack wagering on all live races of all thoroughbred host tracks on any day on which it receives an interstate simulcast for the purpose of conducting interstate wagering.

(d) No host track shall require that any receiving track or simulcast facility receive the interstate simulcast.

(e) If more than one (1) thoroughbred track conducts live racing at the same time on the same day, no track or simulcast facility may receive an interstate simulcast of thoroughbred races unless all thoroughbred tracks conducting live racing at the same time of day agree upon all interstate simulcasts to be received and the division of the thoroughbred host track's commission. If more than one (1) thoroughbred track conducts live racing at different times on the same day, the thoroughbred host track with the highest average daily handle, based on the preceding year, shall be the host track for purposes of splitting the commissions earned on interstate wagering at receiving tracks within the Commonwealth. For purposes of this subsection, average daily handle includes live handle, intertrack wagering handle, and simulcast facility handle. Also for purposes of this subsection, the time of day during which a host track conducts live racing commences with its first published post time and concludes ten (10) minutes after the published post time of its last race of the day, regardless of actual post times.

(f) Each thoroughbred track which desires to conduct interstate wagering pursuant to the provisions of this subsection shall during each year make application to the commission for no less than one hundred percent (100%) of the number of racing days awarded to the track in 1994 and one hundred percent (100%) of the number of races scheduled to be run by the track in 1993.

(g) Notwithstanding subsection (f) of this subsection, any thoroughbred track may apply for less than one hundred percent (100%) of the number of racing days awarded to the track in 1994 or one hundred percent (100%) of the number of races scheduled to be run by the track in 1993, if written approval is obtained from the Kentucky Horsemen's Benevolent and Protective Association and the Kentucky Thoroughbred Owners and Breeders Association, Inc.

(h) A separate accounting on all interstate simulcasting shall be submitted to the commission. The accounting shall be submitted in the same format and at the same time that the report for intertrack wagering is submitted.

(i) If the only simulcast or simulcasts a track participating as a host track makes available for interstate wagering through this state's intertrack wagering system on any race day are thoroughbred horse races designated as graded stakes races by the Graded Stakes Committee of the Thoroughbred Owners and Breeders Association, Inc., then the commission of the receiving track on these interstate wagers shall be split as prescribed by KRS 230.378(3); otherwise, the commission of the receiving track shall be split as prescribed by paragraph (j) of this subsection. Interstate simulcasts received by a thoroughbred host track under the conditions set forth in this paragraph shall not be subject to the conditions set forth in paragraphs (b), (c), (e), and (f) of this subsection.

(j) A receiving track's commission on interstate wagering, after deduction of applicable taxes and any amounts required to be paid by contract to the track from which the interstate simulcast originated, shall be split as follows:

1. Twenty-five percent (25%) to the receiving track where the interstate wagering occurs;
2. Twenty-five percent (25%) to the thoroughbred host track designated by paragraphs (a) and (e) of this subsection. However, if the race does not occur between the first awarded day of a live meet and the last awarded day of the same live meet, an additional twenty-five percent (25%) shall be retained by the receiving track where the interstate wagering occurs;
3. Twenty-five percent (25%) to the purse program of the receiving track where the interstate wagering occurs; and
4. Twenty-five percent (25%) to the purse program of the thoroughbred host track designated by paragraphs (a) and (e) of this subsection. However, if the race does not occur between the first awarded day of a live meet and the last awarded day of the same live meet, then an additional twenty-five percent (25%) shall be paid to the purse program of the receiving track where the interstate wagering occurs.

(k) A simulcast facility's commission on interstate wagering on thoroughbred racing, after deduction of applicable taxes and any amounts required to be paid by contract to the track from which the interstate simulcast originated, shall be split as provided in KRS 230.380(9).

(2) A harness track licensed to conduct harness racing may receive interstate simulcasts of harness horse races and conduct interstate wagering thereon subject to the following limitations:

(a) A harness receiving track may receive interstate simulcasts of harness races and conduct interstate wagering thereon at any time of day and during the course of any live harness horse race meet conducted in the Commonwealth of Kentucky so long as the harness receiving track conducting interstate wagering remits to the harness host track conducting a live meet, from the first awarded day of its live meet through the last awarded day of the same live meet, the amounts provided in paragraph (j) of this subsection.

(b) A harness host track which receives an interstate simulcast and conducts interstate wagering thereon during its live race meet shall offer the simulcasts to all thoroughbred receiving tracks not subject to the provisions of KRS 230.377(2), all harness tracks, and all simulcast facilities through the intertrack wagering system.

(c) Except as otherwise prohibited by law, a harness receiving track or a simulcast facility shall conduct intertrack wagering on all live races of a harness host track on any day it receives an interstate simulcast from a harness host track.

(d) No host track shall require that any receiving track or simulcast facility receive the interstate simulcast.

(e) If more than one (1) harness track conducts live racing at the same time on the same day, no track or simulcast facility may receive an interstate simulcast on harness races unless all harness tracks conducting live racing at that time of day agree upon the interstate simulcast to be received and the division of the harness host track's commission. If more than one (1) harness track conducts live racing at different times on the same day, the harness host track with the highest average daily handle, based on the preceding year, shall be the host track for purposes of splitting the commissions earned on interstate wagering at receiving tracks within the Commonwealth. For purposes of this subsection, average daily handle includes live handle, intertrack wagering handle, and simulcast facility handle. Also for purposes of this subsection, the time of day during which a host track conducts live racing commences with its first published post time and conclude ten (10) minutes after the published post time of its last race of the day, regardless of actual post times.

(f) Each harness track which desires to conduct interstate wagering pursuant to the provisions of this subsection shall during each year make application to the commission for no less than one hundred percent (100%) of the number of racing days awarded to the track in 1994 and one hundred percent (100%) of the number of races scheduled to be run by the track in 1993.

(g) Notwithstanding subsection (f) of this subsection, any harness track may apply for less than one hundred percent (100%) of the number of racing days awarded to the track in 1994 or one hundred percent (100%) of the number of races scheduled to be run by the track in 1993, if written approval is obtained from the Kentucky Harness Horsemen's Association, or its successor.

(h) A separate accounting on all interstate simulcasting shall be submitted to the commission. This accounting shall be submitted in the same format and at the same time that the report for intertrack wagering is submitted.

(i) If the only simulcast or simulcasts a track participating as a harness host track makes available for interstate wagering through this state's intertrack wagering system on any race day are harness horse races (both final and elimination) having a final purse in excess of seventy-five thousand dollars ($75,000), then the commission of the receiving track on these interstate wagers shall be split as prescribed by KRS 230.378(3); otherwise, the commission of the receiving track shall be split as prescribed by paragraph (j) of this subsection. Interstate simulcasts received by a harness host track under the conditions set forth in this paragraph shall not be subject to the conditions set forth in paragraphs (b), (c), (e), and (f) of this subsection.

(j) A receiving track's commission on interstate wagering, after deduction of applicable taxes and any amounts required to be paid by contract to the track from which the interstate simulcast originated, shall be split as follows:

1. Twenty-five percent (25%) to the receiving track where the interstate wagering occurs;
2. Twenty-five percent (25%) to the harness host track designated by paragraphs (a) and (e) of this subsection. However, if no live meet is occurring, an additional twenty-five percent (25%) shall be retained by the receiving track where the interstate wagering occurs;
3. Twenty-five percent (25%) to the purse program of the receiving track where the interstate wagering occurs; and
4. Twenty-five percent (25%) to the purse program of the harness host track designated by paragraphs (a) and (e) of this subsection. However, if no live meet is occurring, an additional twenty-five percent (25%) shall be paid to the purse program of the receiving track where the interstate wagering occurs.

(k) A simulcast facility's commission on interstate wagering on harness races, after deduction of applicable taxes and any amount required to be paid by contract to the track from which the interstate simulcast originated, shall be split as provided in KRS 230.380(9).

(3) A harness track may only receive interstate simulcasts of thoroughbred horse races and conduct interstate wagering thereon as provided in subsection (1)(b) of this section. A thoroughbred track may only receive interstate simulcasts of harness horse races and conduct interstate wagering thereon as provided in subsection (2)(b) of this section. A simulcast facility may only receive interstate simulcasts of thoroughbred and harness horse races and conduct interstate wagering thereon as provided in subsections (1)(b) and (2)(b) of this section.

(4) ***(a) A track licensed to conduct horse racing may receive interstate simulcasts of quarter horse races and conduct interstate wagering thereon, subject to the limitations stated in paragraph (b) of this subsection.***

(b) A receiving track's commission on interstate wagering, after deduction of applicable taxes and any amounts required to be paid by contract to the track from which the interstate simulcast originated, shall be split as follows:

2. Twenty-five percent (25%) to the host track; and

3. Fifty percent (50%) to the quarter horse purse program within this state, to be allocated by the American Quarter Horse Association or its successor to supplement purses for quarter horse racing in this state.

(5) Other provisions of the Kentucky Revised Statutes notwithstanding, any track in a geographic area that contains more than one (1) track within a fifty (50) mile radius of any other track may only receive interstate simulcasts on racing of the same breed of horse as the track was licensed to race on or before July 15, 1998.

Section 48. KRS 230.378 is amended to read as follows:

(1) A receiving track may accept wagers only at the track where it is licensed to conduct its race meeting or conduct intertrack wagering. A receiving track may accept wagers through a telephone account wagering system. Wagers at a receiving track, simulcast facility, or on telephone account wagering shall form a common pool with wagers at a host track. This common pool requirement shall not apply to wagers made in connection with interstate simulcasting pursuant to KRS 230.3771; however, common pools shall be encouraged.

(2) Except as provided in KRS 230.3771(2), the commission of a receiving track, simulcast facility, or on telephone account wagering shall be the same as the commission of the host track as determined in KRS 230.3615 or 230.750.

Section 52. KRS 528.010 is amended to read as follows:

The following definitions apply in this chapter unless the context otherwise requires:

(1) "Advancing gambling activity" -- A person "advances gambling activity" when, acting other than as a player, he engages in conduct that materially aids any form of gambling activity. The conduct shall include, but is not limited to, conduct directed toward the establishment of the particular game, contest, scheme, device, or activity involved; toward the acquisition or maintenance of premises, paraphernalia, equipment, or apparatus therefor; toward the solicitation or inducement of persons to participate therein; toward the actual conduct of the playing phases thereof; toward the arrangement of any of its financial or recording phases or toward any other phase of its operation. A person who gambles at a social game of chance on equal terms with other participants does not otherwise advance gambling activity by performing acts, without remuneration or fee, directed toward the arrangement or facilitation of the game as inviting persons to play, permitting the use of premises therefor and supplying equipment used therein.

(2) "Bookmaking" means advancing gambling activity by unlawfully accepting bets upon the outcome of future contingent events from members of the public as a business.

(3) (a) "Gambling" means staking or risking something of value upon the outcome of a contest, game, gaming scheme, or gaming device which is based upon an element of chance, in accord with an agreement or understanding that someone will receive something of value in the event of a certain outcome. A contest or game in which eligibility to participate is determined by chance and the ultimate winner is determined by skill shall not be considered to be gambling.

(b) Gambling shall not mean charitable gaming which is licensed and regulated under the provisions of KRS Chapter 238***, or the sale of lottery tickets by a lottery retailer regulated under the provisions of KRS Chapter 154A, or the operation of electronic gaming device games by an electronic gaming device operator licensed and regulated under the provisions of KRS Chapter 230A***.

(4) "Gambling device" means:

(a) Any so-called slot machine or any other machine or mechanical device an essential part of which is a drum or reel with insignia thereon, and which when operated may deliver, as a result of the application of an element of chance, any money or property, or by the operation of which a person may become entitled to receive, as the result of the application of an element of chance, any money or property; or

(b) Any other machine or any mechanical or other device, including but not limited to roulette wheels, gambling tables and similar devices, designed and manufactured primarily for use in connection with gambling and which when operated may deliver, as the result of the application of an element of chance, any money or property, or by the operation of which a person may become entitled to receive, as the result of the application of an element of chance, any money or property;

(c) But, the following shall not be considered gambling devices within this definition:

1. Devices dispensing or selling combination or French pools on licensed, regular racetracks during races on said tracks.

2. Electro-mechanical pinball machines specially designed, constructed, set up, and kept to be played for amusement only. Any pinball machine shall be made to receive and react only to the deposit of coins during the course of a game. The ultimate and only award given directly or indirectly to any player for the attainment of a winning score or combination on any pinball machine shall be the right to play one (1) or more additional games immediately on the same device at no further cost. The maximum number of free games that can be won, registered, or accumulated at one (1) time in operation of any pinball machine shall not exceed thirty (30) free games. Any pinball machine shall be made to discharge accumulated free games only by reactivating the playing mechanism once for each game released. Any pinball machine shall be made and kept with no meter or system to preserve a record of free games played, awarded, or discharged. Nonetheless, a pinball machine shall be a gambling device if a person gives or promises to give money, tokens, merchandise, premiums, or property of any kind for scores, combinations, or free games obtained in playing the pinball machine in which the person has an interest as owner, operator, keeper, or otherwise.

3. Devices used in the conduct of charitable gaming.

4. Electronic gaming devices operated by an electronic gaming device operator licensed and regulated under the provisions of KRS Chapter 230A.

(5) "Lottery and gift enterprise" means:

(a) A gambling scheme in which:

1. The players pay or agree to pay something of value for chances, represented and differentiated by numbers or by combinations of numbers or by some other media, one (1) or more of which are to be designated the winning ones; and

2. The ultimate winner is to be determined by a drawing or by some other method based upon the element of chance; and

3. The holders of the winning chances are to receive something of value.

(b) A gift enterprise or referral sales plan which meets the elements of a lottery listed in paragraph (a) of this subsection is to be considered a lottery under this chapter.

(6) "Mutuel" or "the numbers games" means a form of lottery in which the winning chances or plays are not determined upon the basis of a drawing or other act on the part of persons conducting or connected with the scheme, but upon the basis of the outcome or outcomes of a future contingent event or events otherwise unrelated to the particular scheme.

(7) "Player" means a person who engages in any form of gambling solely as a contestant or bettor, without receiving or becoming entitled to receive any profit therefrom other than personal gambling winnings, and without otherwise rendering any material assistance to the establishment, conduct, or operation of the particular gambling activity. A person who engages in "bookmaking" as defined in subsection (2) of this section is not a "player." The status of a "player" shall be a defense to any prosecution under this chapter.

(8) "Profiting from gambling activity" -- A person "profits from gambling activity" when, other than as a player, he accepts or receives or agrees to accept or receive money or other property pursuant to an agreement or understanding with any person whereby he participates or is to participate in the proceeds of gambling activity.

(9) "Something of value" means any money or property, any token, object, or article exchangeable for money or property, or any form of credit or promise directly or indirectly contemplating transfer of money or property or of any interest therein, or involving extension of a service, entertainment, or a privilege of playing at a game or scheme without charge.

(10) "Charitable gaming" means games of chance conducted by charitable organizations licensed and regulated under the provisions of KRS Chapter 238.

(11) "Electronic gaming device games" means games played on electronic gaming devices on the premises of an electronic gaming device operator licensed and regulated in accordance with KRS Chapter 230A.

Section 53. KRS 528.100 is amended to read as follows:

Any gambling device or gambling record possessed or used in violation of this chapter is forfeited to the state, and shall be disposed of in accordance with KRS 500.090, except that the provisions of this section shall not apply to charitable gaming activity as defined by KRS 528.010(10)***, or to electronic gaming device games as defined in subsection (11) of Section 52 of this Act***.

Section 54. KRS 138.510 is amended to read as follows:

(1) Except for the conduct of harness racing at a county fair, an excise tax is imposed on all tracks conducting pari-mutuel racing under the jurisdiction of the Kentucky Racing Commission. For each track with a daily average handle of one

million two hundred thousand dollars ($1,200,000) or above, the tax shall be in the amount of three and one-half percent (3.5%) of all money wagered during the fiscal year. A fiscal year as used in this subsection and subsection (3) of this section shall begin at 12:01 a.m. July 1 and end at 12 midnight June 30. For each track with a daily average handle under one million two hundred thousand dollars ($1,200,000) the tax shall be an amount equal to one and one-half percent (1.5%) of all money wagered during the fiscal year. However, effective January 1, 2001, if a host track located in this state is the location for the conduct of a one (1) day international horse racing event that distributes in excess of a total of ten million dollars ($10,000,000) in purses, an excise tax shall not be imposed on pari-mutuel wagering on live racing conducted that day at the race track. This tax exemption shall remain in effect for any succeeding one (1) day international horse racing event if the event returns within three (3) years of the previously-held event. For the purposes of this subsection, the daily average handle shall be computed from the amount wagered only at the host track on live racing and shall not include money wagered:

(a) At a receiving track;

(b) At a simulcast facility;

(c) On telephone account wagering; or

(d) At a track participating as a receiving track or simulcast facility displaying simulcasts and conducting interstate wagering as permitted by KRS 230.3771 and 230.3773.

Money shall be deducted from the tax paid by host tracks and deposited to the respective development funds in the amount of three-quarters of one percent (0.75%) of the total live racing handle for thoroughbred racing and one percent (1%) of the total live handle for harness racing.

(2) An excise tax is imposed on:

(a) All licensed tracks conducting telephone account wagering;

(b) All tracks participating as receiving tracks in intertrack wagering under the jurisdiction of the Kentucky Racing Commission; and

(c) All tracks participating as receiving tracks displaying simulcasts and conducting interstate wagering thereon.

(3) The tax imposed in subsection (2) of this section shall be in the amount of three percent (3%) of all money wagered under subsection (2) of this section during the fiscal year. A noncontiguous track facility approved by the Kentucky Racing Commission on or after January 1, 1999, shall be exempt from the tax imposed under this subsection, if the facility is established and operated by a licensed track which has a total annual handle on live racing of two hundred fifty thousand dollars ($250,000) or less. The amount of money exempted under this subsection shall be retained by the noncontiguous track facility, KRS 230.3771 and 230.378 notwithstanding. ***Beginning July 1, 2002, all licensed standardbred racing tracks and any noncontiguous track facility of such tracks and approved by the Kentucky Racing Commission on or after January 1, 1999, shall be exempt from the tax imposed under this subsection, and the amount of money so exempted shall be retained by the track, notwithstanding the provisions of Sections 47 and 48 of this Act.***

(4) An amount equal to two percent (2%) of the amount wagered shall be deducted from the tax imposed in subsection (2) of this section and deposited as follows:

(a) If the money is deducted from taxes imposed under subsection (2)(a) and (b) of this section, it shall be deposited in the thoroughbred development fund if the host track is conducting a thoroughbred race meeting or the Kentucky standardbred, quarter horse, Appaloosa, and Arabian development fund, if the host track is conducting a harness race meeting; or

(b) If the money is deducted from taxes imposed under subsection (2)(c) of this section, to the thoroughbred development fund if interstate wagering is conducted on a thoroughbred race meeting or to the Kentucky standardbred, quarter horse, Appaloosa, and Arabian development fund, if interstate wagering is being conducted on a harness race meeting.

(5) ***Three-tenths***[~~Two-tenths~~] of one percent ***(0.3%)***[~~(0.2%)~~] of the total amount wagered on live racing in Kentucky shall be deducted from the pari-mutuel tax levied in subsection (1) of this section, and ***three-tenths***[~~one twentieth~~] of one percent ***(0.3%)***[~~(0.05%)~~] of the total amount wagered on intertrack wagering shall be deducted for the pari-mutuel tax levied in subsection (2) of this section, and allocated to the equine industry program trust and revolving fund to be used for funding the equine industry program at the University of Louisville.

(6) One-tenth of one percent (0.1%) of the total amount wagered in Kentucky shall be deducted from the pari-mutuel tax levied in subsections (1), (2), and (3) of this section and deposited to a trust and revolving fund to be used for the construction, expansion, or renovation of facilities or the purchase of equipment for equine programs at state universities. These funds shall not be used for salaries or for operating funds for teaching, research, or administration. Funds allocated under this subsection shall not replace other funds for capital purposes or operation of equine programs at state universities. The Kentucky Council on Postsecondary Education shall serve as the administrative agent and shall establish an advisory committee of interested parties, including all universities with established equine programs, to evaluate proposals and make recommendations for the awarding of funds. The Kentucky Council on Postsecondary Education may by administrative regulation establish procedures for administering the program and criteria for evaluating and awarding grants.

Section 55. KRS 230.265 is amended to read as follows:

The council shall meet at the call of the chairman, a majority of the council, or at the request of the commission. Members shall serve at the pleasure of their respective sponsoring organizations and shall receive no compensation for serving.

(2) The Kentucky Equine Drug Research Council shall review equine drug research and testing research being conducted at the University of Kentucky or with state funds and shall review and report to the commission on drug research and testing research being conducted elsewhere. The council shall advise the commission and make recommendations for establishing an effective drug regulatory policy for Kentucky racing. In addition, the council shall report to the General Assembly any needed changes regarding the regulation of drugs in horse racing in the Commonwealth of Kentucky.

(3) The commission shall receive ***fifteen-hundredths***[~~one tenth~~] of one percent ***(0.15%)***[~~(0.1%)~~] of the total amount wagered and subject to the pari-mutuel tax levied in KRS 138.510. This money shall be deducted from the pari-mutuel tax levied in KRS 138.510 and shall be used in financing drug research and testing research in Kentucky and shall be in addition to any funds appropriated to the commission for these purposes in the executive budget.

HCR 244, A CONCURRENT RESOLUTION directing the Interim Joint Committee on Agriculture and Natural Resources to study issues concerning the competitiveness of Kentucky coal in the generation of electricity.

WHEREAS, the importance of coal to the economy of the Commonwealth cannot be overstated and the importance of the electric generation market to the coal industry is similarly vital; and

WHEREAS, the market share for Kentucky coal is falling in the electricity generation sector; and

WHEREAS, the mechanism and factors that regulate and control that market may contribute to the declining market share;

NOW, THEREFORE,

Be it resolved by the House of Representatives of the General Assembly of the Commonwealth of Kentucky, the Senate concurring therein:

Section 1. The Interim Joint Committee on Agriculture and Natural Resources is directed to conduct a study of the market forces which control the purchase of coal in the electric generation industry and report its findings to the Legislative Research Commission.

Section 2. The study shall include but not be limited to the following subjects:

(1) The allocation method by which nitrogen oxide (NOx) emission allowances are distributed to existing and new sources;

(2) The role of the Public Service Commission in the fuel purchasing and ratemaking process and the public policy which underlies that regulatory function. Specifically, the study shall examine the full effect of the awarding of coal contracts to out-of-state competitors on tax revenues, jobs, wages, benefits, and environmental compliance costs; and

(3) The factors which hamper the ability of Kentucky coal to be competitive against foreign coal and coal from other states;

Section 3. The report shall include recommendations for legislative action and shall be due on or before December 1, 2002.

Section 4. Provisions of this resolution to the contrary notwithstanding, the Legislative Research Commission shall have the authority to alternatively assign the issues identified herein to an interim joint committee or subcommittee thereof, and to designate a study completion date.

SCR 49, A CONCURRENT RESOLUTION supporting the Kentucky Department of Fish and Wildlife Resource's efforts to gain the cooperation of neighboring states in managing Kentucky's "heritage wildlife," the magnificent elk.

WHEREAS, Kentucky's native elk herd last roamed the hills of Kentucky during the time of the Civil War; and

WHEREAS, in December 1997 the Kentucky Department of Fish and Wildlife Resources began a carefully planned and executed reintroduction of elk to their historic Kentucky range; and

WHEREAS, the department's efforts have resulted in a herd that today numbers 1,400 elk of what may be described as Kentucky's "heritage wildlife" because the reintroduction is filling eastern Kentucky's hills with a wildlife bounty unknown for over 150 years; and

WHEREAS, the department successfully educated Kentucky's local government officials, farmers, hunters, tourism specialists, and wildlife enthusiasts of the challenges arising from the reintroduction and the department's preparations to meet those challenges; and

WHEREAS, the department's educational efforts led to understanding and acceptance of the elk thus making possible the economic benefits now coming to fruition in eastern Kentucky; and

WHEREAS, with the elk herd grown to significant size, now is the time to work with Kentucky's neighboring states toward understanding and acceptance of the reintroduction plan so that the economic benefits flowing from the herd can be spread throughout the region;

NOW, THEREFORE,

Be it resolved by the Senate of the General Assembly of the Commonwealth of Kentucky, the House of Representatives concurring therein:

Section 1. The efforts of the Kentucky Department of Fish and Wildlife Resources to inform neighboring states about Kentucky's elk reintroduction program and to gain cooperation in managing the herd is supported and encouraged. The elk reintroduction success has been built upon educating Kentuckians that the released elk are from disease-free wild herds; that site selection for the release minimizes potential crop damage; that disease transfer between the elk herd and the deer population would be carefully monitored; and that development of the herd would lead to greatly enhanced wildlife hunting and viewing opportunities and increased tourism in eastern Kentucky. A similar educational effort in our neighboring states can overcome misconceptions and fears engendered by Kentucky elk colonizing or temporarily migrating to bordering states. With greater knowledge of the department's reintroduction program, surrounding states will realize that they too can benefit from the presence of this magnificent animal and the entire region surrounding eastern Kentucky will be economically strengthened from Kentucky's "heritage wildlife."

The Committee on Labor and Industry reported **HCR 130** with the expression of opinion that the same should pass. Read at length for the first time and ordered placed in the Calendar.

HCR 130, A CONCURRENT RESOLUTION urging the United States Congress to address the problem of illegal immigration.

WHEREAS, the events of September 11, 2001, have raised concerns about the identity of foreign nationals residing in the United States; and

WHEREAS, undocumented or illegal foreign nationals are unable to obtain Social Security numbers, drivers' licenses, or other documents which could be used in identifying those individuals; and

WHEREAS, it is estimated that there are currently upwards of 60,000 undocumented or illegal foreign nationals in Kentucky; and

WHEREAS, a number of undocumented foreign nationals possess skills essential to domestic employers in the health care, agriculture, computer, and equine industries, among others; and

WHEREAS, Kentucky employers are often unable to employ sufficient numbers of U.S. workers to fill these essential positions; and

WHEREAS, the Federal Immigration and Nationality Act, as amended, provides extremely limited alternatives by which employers in these industries could sponsor undocumented foreign nationals for resident alien status based upon employment in these essential positions; and

WHEREAS, the existing non-immigrant visa categories contained in the Federal Immigration and Nationality Act which permit the employment of foreign nationals to fill positions are cumbersome, unwieldy, lengthy, and too restrictive;

NOW, THEREFORE,

Be it resolved by the House of Representatives of the General Assembly of the Commonwealth of Kentucky, the Senate concurring therein:

Section 1. The United States Congress should enact legislation to amend the Immigration and Nationality Act (8 U.S.C. secs. 1101, et seq.) to create a guest worker program that would enable undocumented foreign nationals to obtain a non-immigrant visa status for up to twenty-four (24) months, based upon offers of employment in industries such as health care, agriculture, equine, and computer, which have been designated by the United States Department of Labor as having shortages of U.S. workers available to fill specific types of positions requiring essential skills and experience. Such non-immigrant status would be extendible based upon a continuing demonstrated need by an employer and would be available to both undocumented workers presently in the United States and foreign nationals residing abroad with existing offers of employment from affected industries.

Section 2. The Clerk of the House is directed to transmit a copy of this Resolution to each member of the Kentucky delegation to the United States Congress.

The Committee on Health and Welfare reported **SB 55,** with Committee Substitute and Committee Amendment attached thereto, **SB 130,** and **SB 203,** with Committee Substitute attached thereto, with the expression of opinion that the same should pass. Read at length for the first time and ordered placed in the Calendar.

SB 99, AN ACT relating to school closings for elections.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Section 1. KRS 158.070 is amended to read as follows:

(1) The minimum school term shall be one hundred eighty-five (185) days, including no less than the equivalent of one hundred seventy-five (175) six (6) hour instructional days. A board of education may extend its term beyond the minimum term.

(2) The local board of education, upon recommendation of the local school district superintendent, shall adopt a school calendar for the upcoming school year that establishes the opening and closing dates of the school term, beginning and

ending dates of each school month, instructional days, and days on which schools shall be dismissed. The local board may schedule days for breaks in the school calendar that shall not be counted as a part of the minimum school term.

(3) Any local board of education operating its schools on a year-round school program basis shall conform with administrative regulations promulgated and adopted by the Kentucky Board of Education upon the recommendation of the commissioner of education, which regulations must be in conformity with the following criteria:

(a) The year-round school program shall be operated on a fiscal year beginning July 1 and ending June 30;

(b) A pupil's required attendance in school shall be for at least the minimum instructional term; and

(c) No teacher shall be required to teach more than the minimum term during the school year.

(4) (a) Each local board of education shall use four (4) days of the minimum school term for professional development and collegial planning activities for the professional staff without the presence of pupils pursuant to the requirements of KRS 156.095. At the discretion of the superintendent, one (1) day of professional development may be used for district-wide activities and for training that is mandated by federal or state law. The use of three (3) days shall be planned by each school council, except that the district is encouraged to provide technical assistance and leadership to school councils to maximize existing resources and to encourage shared planning.

(b) A local board may approve a school's flexible professional development plan that permits teachers or other certified personnel within a school to participate in professional development activities outside the days scheduled in the school calendar or the regularly scheduled hours in the school work day and receive credit towards the four (4) day professional development requirement within the minimum one hundred eighty-five (185) days that a teacher shall be employed.

1. A flexible schedule option shall be reflected in the school's professional development component within the school improvement plan or consolidated plan and approved by the local board. Credit for approved professional development activities may be accumulated in periods of time other than full day segments.

2. No teacher or administrator shall be permitted to count participation in a professional development activity under the flexible schedule option unless the activity is related to the teacher's classroom assignment and content area, or the administrator's job requirements, or is required by the school improvement or consolidated plan, or is tied to the teacher's or the administrator's individual growth plan. The supervisor shall give prior approval and shall monitor compliance with the requirements of this paragraph. In the case of teachers, a professional development committee or the school council by council policy may be responsible for reviewing requests for approval.

(c) The local board of each school district may use up to a maximum of four (4) days of the minimum school term for holidays; provided, however, any holiday which occurs on Saturday may be observed on the preceding Friday.

(d) Each local board may use two (2) days for planning activities without the presence of pupils.

(e) Each local board may use the number of days deemed necessary for:

1. National or state disaster or mourning when proclaimed by the President of the United States or the Governor of the Commonwealth of Kentucky;

2. Local disaster which would endanger the health or safety of children; and

3. Mourning when so designated by the local board of education and approved by the Kentucky Board of Education upon recommendation of the commissioner of education.

(5) The Kentucky Board of Education, upon recommendation of the commissioner of education, shall adopt administrative regulations governing the use of school days, including days missed from the regular school day as a result of local disaster, as defined in subsection (4)(e)2. of this section, and regulations setting forth the guidelines and procedures to be observed for the approval of the days utilized for the opening and closing of school and the days utilized for professional development and planning activities for the professional staff.

(6) (a) In setting the school calendar, school may be closed for two (2) consecutive days for the purpose of permitting professional school employees to attend statewide professional meetings. These two (2) days for statewide professional meetings may be scheduled to begin with the first Thursday after Easter, or largest paid membership, the commissioner of education may designate alternate dates. If schools are scheduled to operate during days designated for the statewide professional meeting, the school district shall permit teachers who are delegates to attend as compensated professional leave time and shall employ substitute teachers in their absence. The commissioner of education shall designate one (1) additional day during the school year when schools shall be closed to permit professional school employees to participate in regional or district professional meetings. These three (3) days so designated for attendance at professional meetings shall not be counted as a part of the minimum school term. School shall be closed on the day of a regular election, ***and may be closed on the day of a primary election,*** and ***those days***[~~that day~~] may be used for professional development activities, professional meetings, or parent-teacher conferences.

(b) All schools shall be closed on the third Monday of January in observance of the birthday of Martin Luther King, Jr. Districts may:

1. Designate the day as one (1) of the four (4) holidays permitted under subsection (4)(c) of this section; or
2. Not include the day in the minimum school term specified in subsection (1) of this section.

(7) Students applying for excused absence for attendance at the Kentucky State Fair shall be granted one (1) day of excused absence.

(8) Schools shall provide continuing education for those students who are determined to need additional time to achieve the outcomes defined in KRS 158.6451, and schools shall not be limited to the minimum school term in providing this education. Continuing education time may include extended days, extended weeks, or extended years. A local board of education may adopt a policy requiring its students to participate in continuing education. The local policy shall set out the conditions under which attendance will be required and any exceptions which are provided. The Kentucky Board of Education shall promulgate administrative regulations establishing criteria for the allotment of grants to local school districts. These grants shall be allotted to school districts to provide instructional programs for pupils who are identified as needing additional time to achieve the outcomes defined in KRS 158.6451. A school district that has a school operating a model early reading program under KRS 158.792 may use a portion of its grant money as part of the matching funds to provide individualized or small group reading instruction to qualified students outside of the regular classroom during the school day.

(9) Notwithstanding any other statute, each school term shall include no less than the equivalent of the minimum number of instructional days required by this section.

(10) Notwithstanding the provisions of KRS 158.060(3) and the provisions of subsection (1) of this section, a school district shall arrange bus schedules so that all buses arrive in sufficient time to provide breakfast prior to the instructional day. In the event of an unforeseen bus delay, the administrator of a school that participates in the Federal School Breakfast Program may authorize up to fifteen (15) minutes of the six (6) hour instructional day if necessary to provide the opportunity for children to eat breakfast not to exceed eight (8) times during the school year within a school building.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

SECTION 1. A NEW SECTION OF KRS CHAPTER 136 IS CREATED TO READ AS FOLLOWS:

(1) Any limited liability company or registered limited liability partnership that elects to be treated as a corporation under federal income tax law shall be treated as a corporation under Section 2 of this Act and KRS 136.0704, 136.071, 136.073, 136.076, 136.078, 136.090, and 136.100 and shall be subject to the taxes, conditions, and requirements imposed by those provisions.

(2) Any single-member limited liability company that is not treated as an entity separate from its corporate member under federal income tax law shall not be treated as an entity separate from its corporate member under Section 2 of this Act and KRS 136.0704, 136.071, 136.073, 136.076, 136.078, 136.090, and 136.100, but shall instead be subject to the taxes, conditions, and requirements imposed by those provisions.

Section 2. KRS 136.070 is amended to read as follows:

(1) Every corporation ***doing business***[~~organized under the laws of this state, every corporation having its commercial domicile in this state, and every foreign corporation owning or leasing property located in this state or having one (1) or more individuals receiving compensation~~] in this state, except financial institutions as defined in KRS 136.500, savings and loan associations organized under the laws of this state and under the laws of the United States and making loans to members only, open-end registered investment companies organized under the laws of this state and registered under the Investment Company Act of 1940, production credit associations, insurance companies, including farmers' or other mutual hail, cyclone, windstorm or fire insurance companies, insurers and reciprocal underwriters, public service companies subject to taxation under KRS 136.120, those corporations exempted by Section 501 of the Internal Revenue Code, any property or facility which has been certified as an alcohol production facility as defined in KRS 247.910, any property or facility which has been certified as a fluidized bed energy production facility as defined in KRS 211.390, and any other religious, educational, charitable, or like corporations not organized or conducted for pecuniary profit, shall pay to the state an annual license tax of two dollars and ten cents ($2.10) on each one thousand dollars ($1,000) of the ***taxable*** capital[~~ employed~~] in the business as computed under the provisions of subsections (2) and (3) of this section, subject to the credit provided in subsection (6) of this section.

(2) ***As used in this section:***

(a) [~~The term ~~]"Capital"[~~ as used in this section~~] means capital stock, surplus, advances by affiliated companies, intercompany accounts, borrowed moneys***, members' capital accounts, or partners' capital accounts.***[~~ or any other accounts representing additional capital used and employed in the business. Accounts properly defined as~~] "Capital"[~~ in this section~~] shall be reported at the value reflected on financial statements prepared for book purposes as of the last day of the calendar or fiscal year;

(b) "***Taxable*** capital[~~ employed~~]," in the case of corporations ***taxable***[~~having property or payroll~~] only in this state, means "capital" as defined above;

(c) "***Taxable*** capital[~~ employed~~]," in the case of corporations ***taxable in***[~~having property or payroll both within and without~~] this state ***and taxable in another state*** means "capital" as defined above and as apportioned under subsection (3) of this section***. A corporation is taxable in another state if, in any state other than Kentucky, the corporation is required to file a return for or pay a net income tax, a franchise tax measured by net income, a franchise tax for the privilege of doing business, or a corporate stock tax***;

(d) ***"Doing business in this state"***[~~Property~~] means***:***

1. Organized under the laws of this state;

2. Having a commercial domicile in this state, as defined in KRS 141.120;

3. Owning or leasing property in this state;

4. Having one (1) or more individuals performing services in this state;

5. Deriving income from or attributable to sources within this state; or

6. Directing activities at Kentucky customers for purposes of selling them goods or services[~~either real property or tangible personal property which is either owned or leased. Payroll means compensation, paid to one (1) or more individuals, as described in subsection (3) of this section. Property and payroll are deemed to be entirely within this state if all other states are prohibited by Public Law 86-272, as it existed on December 31, 1975, from enforcing income tax jurisdiction~~].

(3) The total capital, as determined under subsection (2) of this section, shall be apportioned as follows:

(a) The total capital shall be multiplied by a fraction, the numerator of which is the property factor plus the payroll factor, plus the sales factor, and the denominator of which is three (3); provided, however, that effective with taxable years beginning after July 31, 1985, in lieu of the equally weighted three (3) factor apportionment fraction based on property, payroll, and sales, an apportionment fraction composed of a sales factor representing fifty percent (50%) of the fraction, a property factor representing twenty-five percent (25%) of the fraction, and a payroll factor representing twenty-five percent (25%) of the fraction shall be used;

(b) The property factor is a fraction, the numerator of which is the average value of the taxpayer's real and tangible personal property owned or rented and used in this state during the tax period and the denominator of which is the average value of all the taxpayer's real and tangible personal property owned or rented and used during the tax period; provided, however, that property which has been certified as a pollution control facility as defined in KRS 224.01-300 shall be excluded from the property factor:

1. Property owned by the taxpayer is valued at its original cost. If the original cost of any property is not determinable or is nominal or zero, such property shall be valued by the cabinet under regulations promulgated by the cabinet. Property rented by the taxpayer is valued at eight (8) times the net annual rental rate. Net annual rental rate is the annual rental rate paid by the taxpayer less any annual rental rate received by the taxpayer from subrentals, provided that such rental and such subrentals are reasonable. If the cabinet determines that the annual rental or subrental rate is unreasonable, or if nominal or zero rate is charged, the cabinet may determine and apply such rental rate as will reasonably reflect the value of the property rented by the taxpayer; and

2. The average value of property shall be determined by averaging the values at the beginning and ending of the tax period but the cabinet may require the averaging of monthly values during the tax period if reasonably required to reflect properly the average value of the taxpayer's property;

(c) The payroll factor is a fraction, the numerator of which is the total amount paid or payable in this state during the tax period by the taxpayer for compensation, and the denominator of which is the total compensation paid or payable everywhere during the tax period. Compensation is paid or payable in this state if:

1. The individual's service is performed entirely within the state;
2. The individual's service is performed both within and without the state, but the service performed without the state is incidental to the individual's service within the state; or
3. Some of the service is performed in the state and the base of operations or, if there is no base of operations, the place from which the service is directed or controlled is in the state, or the base of operations or the place from which the service is directed or controlled is not in any state in which some part of the service is performed, but the individual's residence is in this state;

(d) The sales factor is a fraction, the numerator of which is the total sales of the taxpayer in this state during the tax period, and the denominator of which is the total sales of the taxpayer everywhere during the tax period. Sales of tangible personal property are in this state if:

1. The property is delivered or shipped to a purchaser, other than the United States government, or to the designee of the purchaser within this state regardless of the f.o.b. point or other conditions of the sale;
2. The property is shipped from an office, store, warehouse, factory, or other place of storage in this state and the purchaser is the United States government; or
3. Sales, other than sales of tangible personal property, are in this state if the income-producing activity is performed in this state; or the income-producing activity is performed both in and outside this state and a greater proportion of the income-producing activity is performed in this state than in any other state, based on costs of performance.

(4) If the apportionment provisions of this section do not fairly measure the taxpayer's capital in this state, the taxpayer may petition for or the cabinet may require:

(a) The exclusion of any one (1) or more of the factors;

(b) The inclusion of one (1) or more additional factors which will fairly measure the taxpayer's capital in this state; or

(c) The employment of any other method to produce an equitable apportionment of the taxpayer's capital.

(5) No corporation required to pay an annual license tax under this section shall pay less than thirty dollars ($30).

(6) Every corporation with a gross income of not more than five hundred thousand dollars ($500,000) shall be entitled to a credit equivalent to one dollar and forty cents ($1.40) per one thousand dollars ($1,000) of the initial three hundred and fifty thousand dollars ($350,000) of ***taxable*** capital[~~ employed~~] in the business, as computed under the provisions of KRS 136.070(2) and (3).

Section 3. KRS 139.185 is amended to read as follows:

(1) Notwithstanding any other provisions of this chapter to the contrary, the president, vice president, secretary, treasurer or any other person holding any equivalent corporate office of any corporation subject to the provisions of this chapter shall be personally and individually liable, both jointly and severally, for the taxes imposed under this chapter, and neither the corporate dissolution nor withdrawal of the corporation from the state nor the cessation of holding any corporate office shall discharge the foregoing liability of any person. The personal and individual liability shall apply to each and every person holding the corporate office at the time the taxes become or became due. No person will be personally and individually liable pursuant to this section who had no authority in the management of the business or financial affairs of the corporation at the time that the taxes imposed by this chapter become or became due.

(2) Notwithstanding any other provision of law, the managers or equivalent officeholders of a limited liability company and the partners or equivalent officeholders of a registered limited liability partnership shall be personally and individually liable, both jointly and severally, for the taxes imposed on the company or partnership by this chapter. Liability shall attach only to every manager, partner, or officeholder who had authority to collect, account for, or pay over any tax imposed by this chapter at the time the taxes became or become due. Dissolution, withdrawal of the company or partnership from the state, or the cessation of holding any office or position shall not discharge the liability of any person.

(3) ***"***Taxes***"*** as used in this section shall include interest accrued at the rate provided by KRS ***131.183 and*** 139.650***,***[~~ and~~] all applicable penalties imposed under this chapter and all applicable penalties and fees imposed under KRS 131.180, 131.410 to 131.445 and 131.990.

Section 4. KRS 139.340 is amended to read as follows:

(3) The total capital, as determined under subsection (2) of this section, shall be apportioned as follows:

(a) The total capital shall be multiplied by a fraction, the numerator of which is the property factor plus the payroll factor, plus the sales factor, and the denominator of which is three (3); provided, however, that effective with taxable years beginning after July 31, 1985, in lieu of the equally weighted three (3) factor apportionment fraction based on property, payroll, and sales, an apportionment fraction composed of a sales factor representing fifty percent (50%) of the fraction, a property factor representing twenty-five percent (25%) of the fraction, and a payroll factor representing twenty-five percent (25%) of the fraction shall be used;

(b) The property factor is a fraction, the numerator of which is the average value of the taxpayer's real and tangible personal property owned or rented and used in this state during the tax period and the denominator of which is the average value of all the taxpayer's real and tangible personal property owned or rented and used during the tax period; provided, however, that property which has been certified as a pollution control facility as defined in KRS 224.01-300 shall be excluded from the property factor:

1. Property owned by the taxpayer is valued at its original cost. If the original cost of any property is not determinable or is nominal or zero, such property shall be valued by the cabinet under regulations promulgated by the cabinet. Property rented by the taxpayer is valued at eight (8) times the net annual rental rate. Net annual rental rate is the annual rental rate paid by the taxpayer less any annual rental rate received by the taxpayer from subrentals, provided that such rental and such subrentals are reasonable. If the cabinet determines that the annual rental or subrental rate is unreasonable, or if nominal or zero rate is charged, the cabinet may determine and apply such rental rate as will reasonably reflect the value of the property rented by the taxpayer; and

2. The average value of property shall be determined by averaging the values at the beginning and ending of the tax period but the cabinet may require the averaging of monthly values during the tax period if reasonably required to reflect properly the average value of the taxpayer's property;

(c) The payroll factor is a fraction, the numerator of which is the total amount paid or payable in this state during the tax period by the taxpayer for compensation, and the denominator of which is the total compensation paid or payable everywhere during the tax period. Compensation is paid or payable in this state if:

1. The individual's service is performed entirely within the state;

2. The individual's service is performed both within and without the state, but the service performed without the state is incidental to the individual's service within the state; or

3. Some of the service is performed in the state and the base of operations or, if there is no base of operations, the place from which the service is directed or controlled is in the state, or the base of operations or the place from which the service is directed or controlled is not in any state in which some part of the service is performed, but the individual's residence is in this state;

(d) The sales factor is a fraction, the numerator of which is the total sales of the taxpayer in this state during the tax period, and the denominator of which is the total sales of the taxpayer everywhere during the tax period. Sales of tangible personal property are in this state if:

1. The property is delivered or shipped to a purchaser, other than the United States government, or to the designee of the purchaser within this state regardless of the f.o.b. point or other conditions of the sale;

2. The property is shipped from an office, store, warehouse, factory, or other place of storage in this state and the purchaser is the United States government; or

3. Sales, other than sales of tangible personal property, are in this state if the income-producing activity is performed in this state; or the income-producing activity is performed both in and outside this state and a greater proportion of the income-producing activity is performed in this state than in any other state, based on costs of performance.

(4) If the apportionment provisions of this section do not fairly measure the taxpayer's capital in this state, the taxpayer may petition for or the cabinet may require:

(a) The exclusion of any one (1) or more of the factors;

(b) The inclusion of one (1) or more additional factors which will fairly measure the taxpayer's capital in this state; or

(c) The employment of any other method to produce an equitable apportionment of the taxpayer's capital.

(5) No corporation required to pay an annual license tax under this section shall pay less than thirty dollars ($30).

(6) Every corporation with a gross income of not more than five hundred thousand dollars ($500,000) shall be entitled to a credit equivalent to one dollar and forty cents ($1.40) per one thousand dollars ($1,000) of the initial three hundred and fifty thousand dollars ($350,000) of ***taxable*** capital[~~ employed~~] in the business, as computed under the provisions of KRS 136.070(2) and (3).

Section 3. KRS 139.185 is amended to read as follows:

(1) Notwithstanding any other provisions of this chapter to the contrary, the president, vice president, secretary, treasurer or any other person holding any equivalent corporate office of any corporation subject to the provisions of this chapter shall be personally and individually liable, both jointly and severally, for the taxes imposed under this chapter, and neither the corporate dissolution nor withdrawal of the corporation from the state nor the cessation of holding any corporate office shall discharge the foregoing liability of any person. The personal and individual liability shall apply to each and every person holding the corporate office at the time the taxes become or became due. No person will be personally and individually liable pursuant to this section who had no authority in the management of the business or financial affairs of the corporation at the time that the taxes imposed by this chapter become or became due.

(2) Notwithstanding any other provision of law, the managers or equivalent officeholders of a limited liability company and the partners or equivalent officeholders of a registered limited liability partnership shall be personally and individually liable, both jointly and severally, for the taxes imposed on the company or partnership by this chapter. (3) Any search and rescue mission which has lasted four (4) hours without the subject being located, shall be immediately reported to the duty officer of the Division of Emergency Management by telephone or radio.

(4) The results of each lost, missing, or overdue person report or search mission required to be reported under subsections (1) to (3) of this section shall be reported to the division and the local director on forms provided by the division and containing the information required by administrative regulation. SB 222, AN ACT relating to parole of prisoners.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Section 1. KRS 439.340 is amended to read as follows:

(1) The board may release on parole persons confined in any adult state penal or correctional institution of Kentucky or sentenced felons incarcerated in county jails eligible for parole. All paroles shall issue upon order of the board duly adopted. As soon as practicable after his admission to an adult state penal or correctional institution or county jail if he is a sentenced felon, and at such intervals thereafter as it may determine, the Department of Corrections shall obtain all pertinent information regarding each prisoner, except those not eligible for parole. The information shall include his criminal record, his conduct, employment, and attitude in prison, and the reports of physical and mental examinations that have been made. The Department of Corrections shall furnish the circumstances of his offense and his previous social history to the institution and the board. The Department of Corrections shall prepare a report on any information it obtains. It shall be the duty of the Department of Corrections to supplement this report with any material the board may request and submit the report to the board.

(2) Before granting the parole of any prisoner, the board shall consider the pertinent information regarding the prisoner and shall have him appear before it for interview and hearing. The board in its discretion may hold interviews and hearings for prisoners convicted of Class D felonies. The board in its discretion may request the parole board of another state confining prisoners pursuant to KRS 196.610 to interview eligible prisoners and make a parole recommendation to the board. A parole shall be ordered only for the best interest of society and not as an award of clemency, and it shall not be considered a reduction of sentence or pardon. A prisoner shall be placed on parole only when arrangements have been made for his proper employment or for his maintenance and care, and when the board believes he is able and willing to fulfill the obligations of a law abiding citizen. ***Notwithstanding any statute to the contrary, including KRS 440.330, when a prisoner is otherwise eligible for parole and the board has recommended parole for that prisoner for the reasons set forth in subsection (2) of this section, the board may grant parole to any prisoner wanted as a fugitive by any other jurisdiction, and the prisoner shall be released to the detainer from that jurisdiction. Such parole shall not constitute a relinquishment of jurisdiction over the prisoner, and the board in all cases expressly reserves the right to return the prisoner to confinement in a correctional institution of the Commonwealth if the prisoner violates the terms of his or her parole.***

(3) The board shall adopt administrative regulations with respect to the eligibility of prisoners for parole, the conduct of parole and parole revocation hearings, or conditions to be imposed upon parolees. Regulations governing the eligibility of prisoners for parole shall be in accordance with professionally accepted ideas of correction and reform and may utilize in part objective, performance-based criteria; however, nothing herein contained shall preclude the board from utilizing its present regulations in conjunction with other factors involved that would relate to the inmate's needs and the safety of the public.

(4) The board shall insure that sentenced felons confined in county jails are considered for parole within thirty (30) days of their parole eligibility date and the Department of Corrections shall provide the necessary assistance and information to the board in order for it to conduct timely parole reviews.

(5) In addition to or in conjunction with each hearing conducted under subsection (2) of this section for any prisoner convicted of a Class A, B, or C felony and prior to the granting of a parole to any such prisoner, the parole board shall conduct a hearing of which the following persons shall receive not less than forty-five (45) nor more than ninety (90) days' notice: the Commonwealth's attorney who shall notify the sheriff of every county and the chief of police of every city and county in which the prisoner committed any Class A, B, or C felony for which he is imprisoned, and all identified victims of the crimes or the next of kin of any victim who is deceased. Notice to the Commonwealth's attorney shall be by mail to his business office. Notices received by chiefs of police and sheriffs shall be posted in a conspicuous location where police employed by the department may see it. Notices shall be posted in a manner and at a time that will allow officers to make comment thereon to the Parole Board. Notice to victims or their next of kin shall be made, for prisoners incarcerated prior

to July 15, 1986, by mail to the Commonwealth's attorney who shall forward the notice promptly to the victims or their next of kin at their last known address. For prisoners incarcerated on or after July 15, 1986, notice to the victims or their next of kin shall be by mail from the Parole Board to their last known address as provided by the Commonwealth's attorney to the Parole Board at the time of incarceration of the prisoner. The notice shall include the time, date, and place of the hearing provided for in this subsection, and the name and address of a person to write if the recipient of the notice desires to attend the hearing or to submit written comments.

(6) Persons receiving notice as provided for in subsection (5) of this section may submit comments, in person or in writing, to the board upon all issues relating to the parole of the prisoner. The board shall read and consider all comments prior to making its parole decision, if they are received by the board not less than seven (7) days before the date for the hearing. The board shall retain all comments in the prisoner's permanent Parole Board file, and shall consider them in conjunction with any subsequent parole decisions affecting the prisoner. In addition to officers listed in subsection (5) of this section, the crime victims or the next of kin of any victim who is deceased or who is disabled and cannot attend the hearing or the parent or legal guardian of any victim who is a minor may attend the hearing provided for in subsection (5) of this section and present oral and written comments upon all issues relating to the parole of the prisoner, if they have advised the board, in writing received by the board not less than seven (7) days prior to the date set for the hearing, of their intention to attend the hearing. The board shall receive and consider all comments, shall make a record of them which it shall retain in the prisoner's permanent Parole Board file, and shall consider them in conjunction with any subsequent parole decision affecting the prisoner. Persons appearing before the Parole Board pursuant to this subsection may elect to make their presentations outside of the presence of the prisoner.

(7) Victims of Class D felonies may submit comments in person or in writing to the board upon all issues relating to the parole of a prisoner.

(8) Any hearing provided for in subsections (5), (6), and (7) of this section shall be open to the public unless the persons having a right to appear before the board as specified in those subsections request closure of hearing for reasons of personal safety, in which event the hearing shall be closed. The time, date, and location of closed hearings shall not be disclosed to the public.

(9) Except as specifically set forth in this section, nothing in this section shall be deemed to expand or abridge any existing rights of persons to contact and communicate with the Parole Board or any of its members, agents, or employees.

(10) The unintentional failure by the Parole Board, sheriff, chief of police, or any of its members, agents, or employees or by a Commonwealth's attorney or any of his agents or employees to comply with any of the provisions of subsections (5), (6), and (8) of this section shall not affect the validity of any parole decision or give rise to any right or cause of action by the crime victim, the prisoner, or any other person.

(11) No eligible sexual offender within the meaning of KRS 197.400 to 197.440 shall be granted parole unless he has successfully completed the Sexual Offender Treatment Program.

(12) Any prisoner who is granted parole after completion of the Sexual Offender Treatment Program shall be required, as a condition of his parole, to participate in regular treatment in a mental health program approved or operated by the Department of Corrections.

(13) When an order for parole is issued, it shall recite the conditions thereof.

Any project located in an area covered by a comprehensive plan shall be subject to that plan and the approval of the appropriate local planning authority unless the state planning committee determines in writing that there is an overriding state interest in locating the project in that particular area notwithstanding the decision of the local planning authority. In that case, the determination of the state planning committee shall be final and not subject to further review.

(b) During the planning stage of all other projects subject to its review and before any action is taken to acquire land or commence construction, the state agency proposing the project shall submit a report to the state planning committee. The report shall explain the project, address the manner in which the location of the project was determined, including the extent to which the location will be in an area already developed with infrastructure already in place and if not, the reasons for not choosing such a location.

(b) During the planning stage of the project and before any action is taken to acquire the farmland, the state agency shall submit a report to the state planning committee. The report shall explain the project, contain an agricultural impact assessment, highlight the location of land that is intended to be acquired, present the reasons for needing the land, and explain the reasons for rejecting alternatives to the proposed project.

The second ad hoc member shall be a resident of the county in which the project is proposed to be located and, if the project requires the acquisition of fifty (50) or more acres of farmland, be a representative of the agricultural community.

(4) If the state planning committee conducts a review of a proposed state project under the provisions of this section, it shall provide notice of the proposed project to the local community by publishing the notice in the newspaper of greatest local circulation within thirty (30) days after receiving the report. (2) (a) The state planning committee shall also review all proposed capital projects which require the acquisition and development of fifty (50) or more acres of farmland to nonfarm use. The review shall consider alternatives to the project proposal in an effort to balance the public purpose to be served by the state project against the public purpose of conserving productive farmland.

(b) Before final action is taken to acquire the farmland, the state agency shall submit a report to the state planning committee. The report shall explain the project, contain an agricultural impact assessment, highlight the location of land that is intended to be acquired, present the reasons for needing the land, and explain the reasons for rejecting alternatives to the proposed project.

(c) All state projects covered by this subsection shall be located to provide minimal interference with the productivity of agricultural lands of statewide agricultural importance, as identified under the procedure set forth in KRS 246.065 to the extent feasible.

The notice shall solicit comments on the proposal and state that a public hearing shall be held upon a request received within thirty (30) days of the last published notice. If requested, the public hearing shall be held within thirty (30) days after receiving the request. The hearing required by this subsection shall not be construed to be an adjudicative hearing covered by KRS Chapter 13B. No later than thirty (30) days after the hearing, the state planning committee shall file its report and any recommendations to the Governor's Cabinet. The Governor's Cabinet may require the agency proposing the project to alter the project, if necessary, to resolve inconsistencies between the project and any applicable local comprehensive plan, or if there is no local comprehensive plan, to resolve inconsistencies between the project and best practices for the siting of state facilities.

(3) The authority may award scholarships to students who meet the following criteria:

(a) Kentucky residents who are United States citizens as determined by the Council on Postsecondary Education for the purposes of admission and tuition assessment;

In the event a recipient fails to complete an eligible program of study, or fails to render qualified veterinary service as agreed in subsection (3) of this section, the recipient shall be liable for the total repayment of the amount of the scholarship awarded.

(6) A scholarship shall not be awarded or a promissory note cancellation shall not be granted to any person who is in default on any obligation to the authority under any program administered by the authority under KRS 164.740 to 164.785 until financial obligations to the authority are satisfied, except that ineligibility for this reason may be waived by the authority for cause.

(7) A repayment obligation imposed by this section shall not be voidable by reason of the age of the recipient at the time of executing the promissory note.

(8) Failure to meet repayment obligations imposed by this section shall be cause for the revocation of the scholarship recipient's license to practice medicine, subject to the procedures set forth in KRS Chapter 311.

(9) Notwithstanding KRS 164.753(3), the authority shall establish by administrative regulation procedures for the administration of this program, including the execution of appropriate contracts and promissory notes, cancellation of the obligation, repayment of outstanding debt, and the priority of awarding scholarships if funds are insufficient to honor all requests.

(10) Notwithstanding any other statute to the contrary, the maximum interest rate applicable to repayment of a promissory

note under this section shall be twelve percent (12%) per annum, except that if a judgment is rendered to recover payment, the judgment shall bear interest at the rate of five percent (5%) greater than the rate actually charged on the promissory note.

(11) (a) The "Veterinary Medicine Scholarship Program fund" is hereby created as a special trust fund in the State Treasury administered by the Kentucky Higher Education Assistance Authority for the purpose of providing funds for scholarships to eligible students studying veterinary medicine in schools under contract with the Commonwealth.

(b) The trust fund may receive state appropriations, gifts, and grants from public and private sources, and federal funds. Any unallotted or unencumbered balances in the trust fund shall be invested as provided in KRS 42.500(9). Income earned from the investments shall be credited to the trust fund. Any fund balance at the close of the fiscal year shall not lapse but shall be carried forward to the next fiscal year and continuously appropriated only for the purposes specified in this section. A general statement that all continuing appropriations are repealed, discontinued, or suspended shall not operate to repeal, discontinue, or suspend this fund or to repeal this section.

Representative Hoover moved the adoption of the following **HR 251**:

HR 251, A RESOLUTION adjourning the House of Representatives in honor of Clear Fork Baptist Church upon the occasion of her two hundredth anniversary on April 1, 2002.

WHEREAS, on April 1, 1802, Isaac Denton and twelve other devout Christians constituted "The Baptist Church of Jesus Christ," later to be renamed "Clear Fork Baptist Church" on Clear Fork Creek in Cumberland County, which is now Clinton County, Kentucky; her first pastor was Isaac Denton, a native North Carolinian, and he faithfully served as pastor for more than forty-five years, and upon his death in January, 1848, he had witnessed 572 people become members of Clear Fork Baptist Church; and

WHEREAS, at the time of the inception of Clear Fork Baptist Church in 1802, there were only sixteen states in the Union, the Democratic Party was one year old and the Republican Party would be formed fifty-two years later, Thomas Jefferson had just finished his first year in office as President of the United States, Daniel Boone was sixty-one years of age, Andrew Jackson was thirty-five years of age, and Martha Washington died that year; and

WHEREAS, during the first years of the church, services were conducted in private homes or other buildings until August, 1808, when church members agreed to build a meeting house, most likely a log building, and this first building was used until 1861; although there are no records, it is believed that the building was burned during the Civil War, and in 1869, a new building was erected with two later additions built and used until 1995, when it was torn down for the present building; and

Floor Amendment No. 21 to the Committee Substitute to **HB 768**, by Representative Callahan:

Beginning on page 1, line 1 and deleting all the language on page 1, line 1 through page 117, line 16, in its entirety, and inserting the following new provisions in lieu thereof:

"SECTION 1. KRS CHAPTER 230A IS ESTABLISHED AND A NEW SECTION THEREOF IS CREATED TO READ AS FOLLOWS:

The General Assembly hereby finds and declares that:

(1) In authorizing electronic gaming as described in this chapter, it is the purpose and intent of the General Assembly to:

(a) Provide non-state-supported financial assistance to Kentucky's horse racing and breeding industry in the form of new revenues generated by the operation of electronic gaming devices, which will enable the industry to create new jobs, encourage investment, and promote excellence in racing through higher purses for horsemen, renovation, and modernization of the state's aging racetracks;

(b) Restrict the operation of electronic gaming devices to the state's existing racetracks where wagering is already permitted and the requisite controls exist; and

(c) Provide for greater integrity, consistency, economy and efficiency by requiring that electronic gaming authorized under this chapter be a part of the state lottery and under the supervision of the Kentucky Lottery Corporation created under KRS Chapter 154A;

(2) The operation of electronic gaming devices as described in this chapter will generate substantial new revenue for state government so that state government can better serve the needs of the citizens of this state;

(3) The horse racing industry in Kentucky provides a valuable tourism resource for the Commonwealth and provides significant economic benefits to the citizens of this state through the provisions of jobs and the generation of state revenues;

(4) This valuable tourism resource is facing serious economic harm from competition resulting from increased gaming opportunities in neighboring states, including riverboat casinos and video lottery gaming. The operation of electronic gaming devices at certain facilities in this state would allow the racing industry to more effectively compete with out-of-state gaming to keep racing viable and protect the substantial economic contribution the racing industry makes to the Commonwealth;

(5) The General Assembly recognizes the need to protect the public against a statewide proliferation of gaming;

(6) The racing industry currently operates in limited areas of the Commonwealth where pari-mutuel wagering has been accepted, and the operation of additional gaming options exclusively at existing racetracks would not conflict with established community moral standards;

(7) The playing of electronic gaming devices as described in this chapter will be limited to persons twenty-one (21) years or older;

(8) The Kentucky Lottery Corporation established under KRS Chapter 154A will provide the expertise necessary to oversee

the operation of electronic gaming devices in an efficient and effective manner;

(9) The racing industry has extensive experience and expertise in the management of gaming activities, which ensures that electronic gaming devices will be operated with honesty and integrity;

(10) The racing industry has extensive experience and expertise in the development and operation of first-class entertainment facilities, including food and other amenities, which ensures that the operation of electronic gaming devices by licensed racetracks as described in this chapter will create additional economic development and provide competition for out-of-state gaming that will promote the racing and tourism industries in the state and will generate substantial revenue for the state and the racing industry.

If all such applications have been filed and the Lottery Corporation does not object to the transfer within thirty (30) days the transfer may be consummated, subject to the right of the Lottery Corporation to order the purchasing person or entity to divest its interest on terms prescribed by the Lottery Corporation, if the purchasing person or entity is found not suitable after investigation and a hearing. Any order of divestment shall contain terms that will protect the ongoing operations of the electronic gaming device operator.

(5) The total number of electronic gaming device operator licenses issued at any one time by the Lottery Corporation shall not exceed eight (8). The lien shall be in the amount of all sums due to the corporation at any time, together with all interest, penalties, fees, commissions, charges, and other expenses incurred by reason of nonpayment of the lottery proceeds ***or gaming income*** to the corporation or in the process of collecting those proceeds ***or income***, and shall have priority over any other obligation or liability for which the funds or real or personal property are liable. The lien shall be of equal rank with the tax liens of the state, or any city, county, or other taxing authority within the state. The lien shall arise upon the receipt of lottery proceeds by the retailer ***or gaming income by the electronic gaming device operator as defined in KRS Chapter 230A***, whether or not the retailer ***or electronic gaming device operator*** is at that time obligated to remit all or any portion of those proceeds ***or income*** to the corporation, and shall be enforceable until the liability is paid or extinguished.

(b) The lien imposed by paragraph (a) of this subsection shall not be valid as against any purchaser, judgment lien creditor, or holder of a security interest or mechanic's lien until notice of the corporation's lien has been filed by the corporation with the county clerk of any county or counties in which the retailer's ***or electronic gaming device operator's*** business or residence is located, or in any county in which the retailer has an interest in property. The recording of the lien shall constitute notice of both the original obligation to the corporation and all subsequent obligations to the corporation of the same retailer ***or electronic gaming device operator as defined under KRS Chapter 230A***. Upon request, the corporation shall disclose the specific amount of liability at any given date to any interested party legally entitled to the information.

(c) Even though notice of a lien has been filed as provided by paragraph (b) of this subsection, and notwithstanding the provisions of KRS 382.520, the lien imposed by paragraph (a) of this subsection shall not be valid with respect to a security interest which comes into existence after the notice of lien has been filed by reason of disbursements made within forty-five (45) days after the date the lien was filed or the date the person making the disbursements had actual notice of the lien filing, whichever is earlier, if the security interest:

1. Is in property which at the time of filing is subject to the lien imposed by paragraph (a) of this subsection, and is covered by the terms of a written agreement entered into before the lien is filed; and

2. Is protected under local law against a judgment lien arising as of the time of the lien filing, out of an unsecured obligation.

(d) The corporation shall be afforded the same rights and remedies with respect to enforcement of any lien and collection of lottery proceeds ***or gaming income as defined under KRS Chapter 230A*** as is afforded state, county, city, and other taxing authorities by KRS Chapter 134.

Section 36. KRS 154A.650 is amended to read as follows:

(1) The Kentucky State Police shall, at the request of the division of security, perform full criminal background investigations on all potential vendors and potential employees of the corporation at the level of division director and above and at any level within the division of security. The corporation shall reimburse the Kentucky State Police for the actual costs of such investigations.

(2) The corporation or its division of security shall:

(a) Conduct criminal background investigations and credit investigations on all potential ***lottery*** retailers ***and electronic gaming device operators*** and investigate all potential employees of the corporation not referred to in subsection (1) of this section;

(b) Supervise ***lottery*** ticket validation and lottery ***ticket*** drawings;

(c) Inspect at times determined solely by the division, the facilities of any vendor in order to determine the integrity of the vendor's product and in order to determine whether the vendor is in compliance with its contract;

(d) Report any suspected violations of this chapter to the appropriate Commonwealth's attorney, or the Attorney General and law enforcement agencies; and

(e) Upon request, provide assistance to any Commonwealth's attorney, the Attorney General or law enforcement agency investigating a violation of this chapter.

Section 37. KRS 230.260 is amended to read as follows:

The commission, in the interest of breeding or the improvement of breeds of horses, shall have all powers necessary and proper to carry out fully and effectually the provisions of this chapter including, but without limitation, the following:

(1) The commission is vested with jurisdiction and supervision over all horse race meetings in this Commonwealth and over all associations and all persons on association grounds and may eject or exclude therefrom or any part thereof, any person, licensed or unlicensed, whose conduct or reputation is such that his presence on association grounds may, in the opinion of the commission, reflect on the honesty and integrity of horse racing or interfere with the orderly conduct of horse racing or racing at horse race meetings; provided, however, no persons shall be excluded or ejected from association grounds solely on the ground of race, color, creed, national origin, ancestry, or sex;

(2) The commission, its representatives and employees, may visit, investigate and have free access to the office, track, facilities, or other places of business of any licensee for the purpose of satisfying itself that this chapter and its administrative regulations are strictly complied with;

(3) The commission shall have full authority to prescribe necessary and reasonable administrative regulations and conditions under which horse racing at a horse race meeting shall be conducted in this state and to fix and regulate the minimum amount of purses, stakes, or awards to be offered for the conduct of any horse race meeting;

(4) Applications for licenses shall be made in the form, in the manner, and contain information as the commission may, by administrative regulation, require. Fees for all licenses issued under KRS 230.310 ***or KRS Chapter 230A*** shall be prescribed by and paid to the commission;

(5) The commission shall establish by administrative regulation minimum fees for jockeys to be effective in the absence of a contract between an employing owner or trainer and a jockey. The minimum fees shall be no less than those of July 1, 1985;

(6) Any of the foregoing administrative regulations, to the extent they are promulgated, shall be promulgated, amended, or repealed in conformity with KRS Chapter 13A;

(7) The commission may issue subpoenas for the attendance of witnesses before it and administer oaths to witnesses whenever, in the judgment of the commission, it is necessary to do so for the effectual discharge of its duties;

(8) The commission shall have authority to compel any racing association licensed under this chapter to file with the commission at the end of its fiscal year, a balance sheet, showing assets and liabilities, and an earnings statement, together with a list of its stockholders or other persons holding a beneficial interest in the association;

(9) The commission shall promulgate administrative regulations establishing safety standards for jockeys, which shall include the use of rib protection equipment. Rib protection equipment shall not be included in a jockey's weight***;***

(10) The commission shall have all powers necessary and proper to carry out fully and effectively its responsibilities relating to electronic gaming device games as described in KRS Chapter 230A, including the application and licensing of electronic gaming device employees, overseeing proceeds from electronic gaming device games as described in Section 14 of this Act for the promotion and betterment of the Kentucky horse industry, and promulgating such administrative regulations governing the integration of electronic gaming device games at racetracks as it deems necessary for the protection of the public.

Section 38. KRS 230.310 is amended to read as follows:

Every person not required to be licensed under KRS 230.300 who desires to participate in horse racing in the Commonwealth as a horse owner, trainer, jockey, apprentice jockey, agent, stable employee, racing official, association employee, or employee of a person or concern contracting with the association to provide a service or commodity and which requires their presence on association grounds during a race meeting, or veterinarian, farrier, horse dentist, or supplier of food, tack, medication, or horse feed, ***or electronic gaming device employee as defined in subsection (6) of Section 2 of this Act,*** shall first apply to the commission for a license to participate in the activity on association grounds during a race meeting. No person required to be licensed by this section may participate in any activity required to be licensed on association grounds during a race meeting without a valid license therefor. An applicant for a license shall submit to the commission fingerprints as may be required and other information necessary and reasonable for processing a license application. The commission is authorized to exchange fingerprint data with the Kentucky State Police and the Federal Bureau of Investigation in order to conduct a criminal history background check of an applicant. The commission may issue a license if it finds that the financial responsibility, age, experience, reputation, competence, and general fitness of the applicant to perform the activity permitted by a license, are consistent with the best interest of racing and the maintenance of the honesty, integrity, and high quality thereof. A license shall be issued for the calendar year in which it is issued and may be renewed by the commission. The license shall be valid at all horse race meetings in the Commonwealth during the period for which it is issued unless suspended or revoked under the administrative regulations promulgated by the commission under this chapter. With respect to horse owners and trainers, the commission may promulgate administrative regulations to facilitate and promote uniform, reciprocal licensing with other states.

Section 39. KRS 230.377 is amended to read as follows:

(1) Other provisions of the Kentucky Revised Statutes notwithstanding, a track may apply to the commission for simulcasting and intertrack wagering dates. Applications shall be submitted in accordance with KRS 230.300. The commission shall not approve the establishment or relocation of a receiving track within a radius of seventy-five (75) miles of a race track duly licensed as of July 15, 1992, without the prior written consent of the licensed track within whose seventy-five (75) mile radius the new receiving track would be located.

(2) On or before November 1 of each year, the commission shall meet and award intertrack wagering dates to all tracks for the entire succeeding calendar year. In a geographic area containing more than one (1) track within a fifty (50) mile radius of another track, intertrack wagering shall be limited to simulcasting and wagering on racing of the same breed of horse as the receiving track was licensed to race on or before July 15, 1998.

(3) The commission shall approve no more than nine (9) tracks for participation in horse racing, intertrack wagering, and simulcasting. Any approval by the commission of a change in location of these tracks shall be subject to the local-approval process contained in KRS 230.380.

(4) A track may by administrative regulation be required to simulcast its races to one (1) or more receiving tracks approved for simulcasting and intertrack wagering, as a prerequisite for the issuance of a license pursuant to KRS 230.300, provided that:

- (a) Each track shall be permitted to exempt one (1) day of racing from simulcasting to both receiving tracks and simulcast facilities, at its discretion;
- (b) Tracks in a county containing a city of the first class ***or a consolidated local government*** and tracks in an urban-county government shall not be required to simulcast to each other or to any other facility in those counties. This provision shall not be construed as requiring tracks within the same county to simulcast to each other; and
- (c) In the absence of a contract between a host track and a receiving track, the commission shall be split as provided for in KRS 230.378(3).

(5) A track may receive simulcasts and conduct interstate wagering thereon subject to the following limitations which shall be in addition to the limitations set forth in KRS 230.3771:

- (a) A track licensed to conduct thoroughbred racing may receive simulcasts and conduct interstate wagering on all thoroughbred horse races designated as graded stakes races by the Graded Stakes Committee of the Thoroughbred Owners and Breeders Association, Inc., without further consents or approvals.
- (b) A track licensed to conduct harness racing may receive simulcasts and conduct interstate wagering on all harness

horse races (both final and elimination) having a final purse in excess of seventy-five thousand dollars ($75,000) without further consents or approvals.

(c) A track which applies to the commission to receive an interstate race of a different breed than the breed for which it is licensed by the commission shall receive any simulcast of an interstate race through the intertrack wagering system upon approval by the commission. ***Notwithstanding the foregoing, a track licensed to conduct horse racing may receive simulcasts and conduct interstate wagering on quarter horse races, subject to the limitations of Section 40 of this Act.***

(d) A track may receive simulcasts of special event races conducted in other states or foreign countries which are determined by the commission to be of sufficient national or international significance or interest to warrant interstate wagering and if the simulcast of these races has been approved by the Kentucky Thoroughbred Owners and Breeders Association, Inc., the Kentucky Division of the Horseman's Benevolent and Protective Association, for thoroughbred races, and the Kentucky Harness Horsemen's Association for harness racing, and any track conducting live horse races of the same breed at the same time as the simulcast race.

(e) A track may also receive simulcasts and conduct interstate wagering on thoroughbred horse races other than those described in paragraphs (a) and (d) of this section if the simulcast of these races has been approved by the Kentucky Thoroughbred Owners and Breeders Association, Inc., and the Kentucky Horsemen's Benevolent and Protective Association, for thoroughbred races, and the Kentucky Harness Horsemen's Association, or its successor, for harness racing.

(f) The consent required by paragraph (e) of this subsection or by subsections (1)(g) and (2)(g) of KRS 230.3771 shall not be withheld:

1. For any reason not specifically related to financial harm to live horse racing; or

2. As a condition to the granting of any contractual or other concession not specifically related to the effects of interstate simulcasting on live horse racing in this Commonwealth, taken as a whole.

(g) A host track located in this state may receive simulcasting of not more than two (2) full cards of racing from another state, if both tracks race horses of the same breed and if:

1. The race date was previously granted by the Kentucky Racing Commission to conduct live racing at the track located in this state;

2. Live racing was canceled due to weather conditions; and

3. The consent required by subsection (5)(d) of this section is obtained.

(h) The in-state track receiving the simulcast specified in paragraph (g) of this subsection shall offer that simulcast to all participating tracks and simulcast facilities in the intertrack wagering system.

(i) All interstate simulcasting shall be conducted in accordance with applicable federal laws.

(6) The commission may promulgate necessary and reasonable administrative regulations for the purpose of administering the conduct of intertrack or interstate wagering and regulating the conditions under which wagering shall be held and conducted. Administrative regulations shall provide for the prevention of practices detrimental to the public interest and to impose penalties for violations. All administrative regulations shall be in conformity with the provisions of KRS Chapter 13A, KRS 138.510, and this chapter.

(7) Subsections (2) and (3) of this section shall apply only to intertrack wagering dates awarded for calendar year 1993 and thereafter, and any unresolved intertrack wagering dates for calendar year 1992 shall be awarded pursuant to applicable provisions of law in effect immediately prior to March 30, 1992.

Section 40. KRS 230.3771 is amended to read as follows:

(1) A thoroughbred track licensed to conduct thoroughbred racing may receive interstate simulcasts of thoroughbred horse races and conduct interstate wagering thereon, subject to the following limitations:

(a) A thoroughbred receiving track may receive interstate simulcasts of thoroughbred races and conduct interstate wagering thereon at any time of day and during any live thoroughbred horse race meet conducted in the Commonwealth of Kentucky so long as the thoroughbred receiving track conducting interstate wagering remits to the thoroughbred host track conducting a live meet, from the first awarded day of its live meet through the last awarded day of the same live meet, the amounts provided in paragraph (j) of this subsection.

(b) A thoroughbred host track which receives interstate simulcasts and conducts interstate wagering thereon during the period of time from the first awarded day of its live meet through the last awarded day of its live meet shall offer the simulcasts to all thoroughbred receiving tracks, all harness tracks not subject to the provisions of KRS 230.377(2), and all simulcast facilities through the intertrack wagering system.

(c) Except as otherwise prohibited by law, a receiving track shall conduct intertrack wagering on all live races of all thoroughbred host tracks on any day on which it receives an interstate simulcast for the purpose of conducting interstate wagering.

(d) No host track shall require that any receiving track or simulcast facility receive the interstate simulcast.

(e) If more than one (1) thoroughbred track conducts live racing at the same time on the same day, no track or simulcast facility may receive an interstate simulcast of thoroughbred races unless all thoroughbred tracks conducting live racing at the same time of day agree upon all interstate simulcasts to be received and the division of the thoroughbred host track's commission. If more than one (1) thoroughbred track conducts live racing at different times on the same day, the thoroughbred host track with the highest average daily handle, based on the preceding year, shall be the host track for purposes of splitting the commissions earned on interstate wagering at receiving tracks within the Commonwealth. For purposes of this subsection, average daily handle includes live handle, intertrack wagering handle, and simulcast facility handle. Also for purposes of this subsection, the time of day during which a host track conducts live racing commences with its first published post time and concludes ten (10) minutes after the published post time of its last race of the day, regardless of actual post times.

(f) Each thoroughbred track which desires to conduct interstate wagering pursuant to the provisions of this subsection shall during each year make application to the commission for no less than one hundred percent (100%) of the number of racing days awarded to the track in 1994 and one hundred percent (100%) of the number of races scheduled to be run by the track in 1993.

(g) Notwithstanding subsection (f) of this subsection, any thoroughbred track may apply for less than one hundred percent (100%) of the number of racing days awarded to the track in 1994 or one hundred percent (100%) of the number of races scheduled to be run by the track in 1993, if written approval is obtained from the Kentucky Horsemen's Benevolent and Protective Association and the Kentucky Thoroughbred Owners and Breeders Association, Inc.

(h) A separate accounting on all interstate simulcasting shall be submitted to the commission. The accounting shall be submitted in the same format and at the same time that the report for intertrack wagering is submitted.

(i) If the only simulcast or simulcasts a track participating as a host track makes available for interstate wagering through this state's intertrack wagering system on any race day are thoroughbred horse races designated as graded stakes races by the Graded Stakes Committee of the Thoroughbred Owners and Breeders Association, Inc., then the commission of the receiving track on these interstate wagers shall be split as prescribed by KRS 230.378(3); otherwise, the commission of the receiving track shall be split as prescribed by paragraph (j) of this subsection. Interstate simulcasts received by a thoroughbred host track under the conditions set forth in this paragraph shall not be subject to the conditions set forth in paragraphs (b), (c), (e), and (f) of this subsection.

(j) A receiving track's commission on interstate wagering, after deduction of applicable taxes and any amounts required to be paid by contract to the track from which the interstate simulcast originated, shall be split as follows:

1. Twenty-five percent (25%) to the receiving track where the interstate wagering occurs;
2. Twenty-five percent (25%) to the thoroughbred host track designated by paragraphs (a) and (e) of this subsection. However, if the race does not occur between the first awarded day of a live meet and the last awarded day of the same live meet, an additional twenty-five percent (25%) shall be retained by the receiving track where the interstate wagering occurs;
3. Twenty-five percent (25%) to the purse program of the receiving track where the interstate wagering occurs; and
4. Twenty-five percent (25%) to the purse program of the thoroughbred host track designated by paragraphs (a) and (e) of this subsection. However, if the race does not occur between the first awarded day of a live meet and the last awarded day of the same live meet, then an additional twenty-five percent (25%) shall be paid to the purse program of the receiving track where the interstate wagering occurs.

(k) A simulcast facility's commission on interstate wagering on thoroughbred racing, after deduction of applicable taxes and any amounts required to be paid by contract to the track from which the interstate simulcast originated, shall be split as provided in KRS 230.380(9).

(2) A harness track licensed to conduct harness racing may receive interstate simulcasts of harness horse races and conduct interstate wagering thereon subject to the following limitations:

(a) A harness receiving track may receive interstate simulcasts of harness races and conduct interstate wagering thereon at any time of day and during the course of any live harness horse race meet conducted in the Commonwealth of Kentucky so long as the harness receiving track conducting interstate wagering remits to the harness host track conducting a live meet, from the first awarded day of its live meet through the last awarded day of the same live meet, the amounts provided in paragraph (j) of this subsection.

(b) A harness host track which receives an interstate simulcast and conducts interstate wagering thereon during its live race meet shall offer the simulcasts to all thoroughbred receiving tracks not subject to the provisions of KRS 230.377(2), all harness tracks, and all simulcast facilities through the intertrack wagering system.

(c) Except as otherwise prohibited by law, a harness receiving track or a simulcast facility shall conduct intertrack wagering on all live races of a harness host track on any day it receives an interstate simulcast from a harness host track.

(d) No host track shall require that any receiving track or simulcast facility receive the interstate simulcast.

(e) If more than one (1) harness track conducts live racing at the same time on the same day, no track or simulcast facility may receive an interstate simulcast on harness races unless all harness tracks conducting live racing at that time of day agree upon the interstate simulcast to be received and the division of the harness host track's commission. If more than one (1) harness track conducts live racing at different times on the same day, the harness host track with the highest average daily handle, based on the preceding year, shall be the host track for purposes of splitting the commissions earned on interstate wagering at receiving tracks within the Commonwealth. For purposes of this subsection, average daily handle includes live handle, intertrack wagering handle, and simulcast facility handle. Also for purposes of this subsection, the time of day during which a host track conducts live racing commences with its first published post time and conclude ten (10) minutes after the published post time of its last race of the day, regardless of actual post times.

(f) Each harness track which desires to conduct interstate wagering pursuant to the provisions of this subsection shall during each year make application to the commission for no less than one hundred percent (100%) of the number of racing days awarded to the track in 1994 and one hundred percent (100%) of the number of races scheduled to be run by the track in 1993.

(g) Notwithstanding subsection (f) of this subsection, any harness track may apply for less than one hundred percent (100%) of the number of racing days awarded to the track in 1994 or one hundred percent (100%) of the number of races scheduled to be run by the track in 1993, if written approval is obtained from the Kentucky Harness Horsemen's Association, or its successor.

(h) A separate accounting on all interstate simulcasting shall be submitted to the commission. This accounting shall be submitted in the same format and at the same time that the report for intertrack wagering is submitted.

(i) If the only simulcast or simulcasts a track participating as a harness host track makes available for interstate wagering through this state's intertrack wagering system on any race day are harness horse races (both final and elimination) having a final purse in excess of seventy-five thousand dollars ($75,000), then the commission of the receiving track on these interstate wagers shall be split as prescribed by KRS 230.378(3); otherwise, the commission of the receiving track shall be split as prescribed by paragraph (j) of this subsection. Interstate simulcasts received by a harness host track under the conditions set forth in this paragraph shall not be subject to the conditions set forth in paragraphs (b), (c), (e), and (f) of this subsection.

(j) A receiving track's commission on interstate wagering, after deduction of applicable taxes and any amounts required to be paid by contract to the track from which the interstate simulcast originated, shall be split as follows:

1. Twenty-five percent (25%) to the receiving track where the interstate wagering occurs;
2. Twenty-five percent (25%) to the harness host track designated by paragraphs (a) and (e) of this subsection. However, if no live meet is occurring, an additional twenty-five percent (25%) shall be retained by the receiving track where the interstate wagering occurs;
3. Twenty-five percent (25%) to the purse program of the receiving track where the interstate wagering occurs; and
4. Twenty-five percent (25%) to the purse program of the harness host track designated by paragraphs (a) and (e) of this subsection. However, if no live meet is occurring, an additional twenty-five percent (25%) shall be paid to the purse program of the receiving track where the interstate wagering occurs.

(k) A simulcast facility's commission on interstate wagering on harness races, after deduction of applicable taxes and any amount required to be paid by contract to the track from which the interstate simulcast originated, shall be split as provided in KRS 230.380(9).

(3) A harness track may only receive interstate simulcasts of thoroughbred horse races and conduct interstate wagering thereon as provided in subsection (1)(b) of this section. A thoroughbred track may only receive interstate simulcasts of harness horse races and conduct interstate wagering thereon as provided in subsection (2)(b) of this section. A simulcast facility may only receive interstate simulcasts of thoroughbred and harness horse races and conduct interstate wagering thereon as provided in subsections (1)(b) and (2)(b) of this section.

(4) *(a) A track licensed to conduct horse racing may receive interstate simulcasts of quarter horse races and conduct interstate wagering thereon, subject to the limitations stated in paragraph (b) of this subsection.*

(b) A receiving track's commission on interstate wagering, after deduction of applicable taxes and any amounts required to be paid by contract to the track from which the interstate simulcast originated, shall be split as follows:

1. Twenty-five percent (25%) to the receiving track where the interstate wagering occurs;
2. Twenty-five percent (25%) to the host track; and
3. Fifty percent (50%) to the quarter horse purse program within this state, to be allocated by the American Quarter Horse Association or its successor to supplement purses for quarter horse racing in this state.

(5) Other provisions of the Kentucky Revised Statutes notwithstanding, any track in a geographic area that contains more than one (1) track within a fifty (50) mile radius of any other track may only receive interstate simulcasts on racing of the same

breed of horse as the track was licensed to race on or before July 15, 1998.

Section 41. KRS 230.378 is amended to read as follows:

(1) A receiving track may accept wagers only at the track where it is licensed to conduct its race meeting or conduct intertrack wagering. A receiving track may accept wagers through a telephone account wagering system. Wagers at a receiving track, simulcast facility, or on telephone account wagering shall form a common pool with wagers at a host track. This common pool requirement shall not apply to wagers made in connection with interstate simulcasting pursuant to KRS 230.3771; however, common pools shall be encouraged.

(2) Except as provided in KRS 230.3771(2), the commission of a receiving track, simulcast facility, or on telephone account wagering shall be the same as the commission of the host track as determined in KRS 230.3615 or 230.750.

(3) In the absence of a valid contract with a horsemen's organization, the commission of a receiving track, after deduction of applicable taxes and other applicable deductions, shall be split as follows:

  (a) With respect to races other than quarter horse races, twenty-two percent (22%) to the host track, twenty-two percent (22%) to the purse program at the host track, twenty-two percent (22%) to the receiving track and twenty-two percent (22%) to the purse program at the receiving track. Twelve percent (12%) of the commission shall be allocated evenly between the host track and the receiving track to cover the cost of simulcasting, unless otherwise agreed to by contract***; and***

  (b) With respect to quarter horse races, twenty-five percent (25%) to the host track, twenty-five percent (25%) to the receiving track, and fifty percent (50%) to the quarter horse purse program in this state.

(4) The deduction for the backside improvement fund, as provided for in KRS 230.3615(4) shall not apply to the commission or pari-mutuel tax of a receiving track or telephone account wagering.

(5) A receiving track shall be exempt from the admissions tax levied in KRS 138.480 and from any license fee imposed by statute or regulation by the commission.

Section 42. KRS 243.500 is amended to read as follows:

Section 45. KRS 528.010 is amended to read as follows:

The following definitions apply in this chapter unless the context otherwise requires:

(1) "Advancing gambling activity" -- A person "advances gambling activity" when, acting other than as a player, he engages in conduct that materially aids any form of gambling activity. The conduct shall include, but is not limited to, conduct directed toward the establishment of the particular game, contest, scheme, device, or activity involved; toward the acquisition or maintenance of premises, paraphernalia, equipment, or apparatus therefor; toward the solicitation or inducement of persons to participate therein; toward the actual conduct of the playing phases thereof; toward the arrangement of any of its financial or recording phases or toward any other phase of its operation. A person who gambles at a social game of chance on equal terms with other participants does not otherwise advance gambling activity by performing acts, without remuneration or fee, directed toward the arrangement or facilitation of the game as inviting persons to play, permitting the use of premises therefor and supplying equipment used therein.

(2) "Bookmaking" means advancing gambling activity by unlawfully accepting bets upon the outcome of future contingent events from members of the public as a business.

(3) (a) "Gambling" means staking or risking something of value upon the outcome of a contest, game, gaming scheme, or gaming device which is based upon an element of chance, in accord with an agreement or understanding that someone will receive something of value in the event of a certain outcome. A contest or game in which eligibility to participate is determined by chance and the ultimate winner is determined by skill shall not be considered to be gambling.

(b) Gambling shall not mean charitable gaming which is licensed and regulated under the provisions of KRS Chapter 238***, or the sale of lottery tickets by a lottery retailer regulated under the provisions of KRS Chapter 154A, or the operation of electronic gaming device games by an electronic gaming device operator licensed and regulated under the provisions of KRS Chapter 230A***.

(4) "Gambling device" means:

(a) Any so-called slot machine or any other machine or mechanical device an essential part of which is a drum or reel with insignia thereon, and which when operated may deliver, as a result of the application of an element of chance, any money or property, or by the operation of which a person may become entitled to receive, as the result of the application of an element of chance, any money or property; or

(b) Any other machine or any mechanical or other device, including but not limited to roulette wheels, gambling tables and similar devices, designed and manufactured primarily for use in connection with gambling and which when operated may deliver, as the result of the application of an element of chance, any money or property, or by the operation of which a person may become entitled to receive, as the result of the application of an element of chance, any money or property;

(c) But, the following shall not be considered gambling devices within this definition:

1. Devices dispensing or selling combination or French pools on licensed, regular racetracks during races on said tracks.

2. Electro-mechanical pinball machines specially designed, constructed, set up, and kept to be played for amusement only. Any pinball machine shall be made to receive and react only to the deposit of coins during the course of a game. The ultimate and only award given directly or indirectly to any player for the attainment of a winning score or combination on any pinball machine shall be the right to play one (1) or more additional games immediately on the same device at no further cost. The maximum number of free

games that can be won, registered, or accumulated at one (1) time in operation of any pinball machine shall not exceed thirty (30) free games. Any pinball machine shall be made to discharge accumulated free games only by reactivating the playing mechanism once for each game released. Any pinball machine shall be made and kept with no meter or system to preserve a record of free games played, awarded, or discharged. Nonetheless, a pinball machine shall be a gambling device if a person gives or promises to give money, tokens, merchandise, premiums, or property of any kind for scores, combinations, or free games obtained in playing the pinball machine in which the person has an interest as owner, operator, keeper, or otherwise.

3. Devices used in the conduct of charitable gaming.

4. Electronic gaming devices operated by an electronic gaming device operator licensed and regulated under the provisions of KRS Chapter 230A.

(5) "Lottery and gift enterprise" means:

(a) A gambling scheme in which:

1. The players pay or agree to pay something of value for chances, represented and differentiated by numbers or by combinations of numbers or by some other media, one (1) or more of which are to be designated the winning ones; and

2. The ultimate winner is to be determined by a drawing or by some other method based upon the element of chance; and

3. The holders of the winning chances are to receive something of value.

(b) A gift enterprise or referral sales plan which meets the elements of a lottery listed in paragraph (a) of this subsection is to be considered a lottery under this chapter.

(6) "Mutuel" or "the numbers games" means a form of lottery in which the winning chances or plays are not determined upon the basis of a drawing or other act on the part of persons conducting or connected with the scheme, but upon the basis of the outcome or outcomes of a future contingent event or events otherwise unrelated to the particular scheme.

(7) "Player" means a person who engages in any form of gambling solely as a contestant or bettor, without receiving or becoming entitled to receive any profit therefrom other than personal gambling winnings, and without otherwise rendering any material assistance to the establishment, conduct, or operation of the particular gambling activity. A person who engages in "bookmaking" as defined in subsection (2) of this section is not a "player." The status of a "player" shall be a defense to any prosecution under this chapter.

(8) "Profiting from gambling activity" -- A person "profits from gambling activity" when, other than as a player, he accepts or receives or agrees to accept or receive money or other property pursuant to an agreement or understanding with any person whereby he participates or is to participate in the proceeds of gambling activity.

(9) "Something of value" means any money or property, any token, object, or article exchangeable for money or property, or any form of credit or promise directly or indirectly contemplating transfer of money or property or of any interest therein, or involving extension of a service, entertainment, or a privilege of playing at a game or scheme without charge.

(10) "Charitable gaming" means games of chance conducted by charitable organizations licensed and regulated under the provisions of KRS Chapter 238.

(11) "Electronic gaming device games" means games played on electronic gaming devices on the premises of an electronic gaming device operator licensed and regulated in accordance with KRS Chapter 230A.

Section 46. KRS 528.100 is amended to read as follows:

Any gambling device or gambling record possessed or used in violation of this chapter is forfeited to the state, and shall be disposed of in accordance with KRS 500.090, except that the provisions of this section shall not apply to charitable gaming activity as defined by KRS 528.010(10)***, or to electronic gaming device games as defined in subsection (11) of Section 45 of this Act***.

Section 47. KRS 138.510 is amended to read as follows:

(1) Except for the conduct of harness racing at a county fair, an excise tax is imposed on all tracks conducting pari-mutuel racing under the jurisdiction of the Kentucky Racing Commission. For each track with a daily average handle of one million two hundred thousand dollars ($1,200,000) or above, the tax shall be in the amount of three and one-half percent (3.5%) of all money wagered during the fiscal year. A fiscal year as used in this subsection and subsection (3) of this section shall begin at 12:01 a.m. July 1 and end at 12 midnight June 30. For each track with a daily average handle under one million two hundred thousand dollars ($1,200,000) the tax shall be an amount equal to one and one-half percent (1.5%) of all money wagered during the fiscal year. However, effective January 1, 2001, if a host track located in this state is the location for the conduct of a one (1) day international horse racing event that distributes in excess of a total of ten million dollars ($10,000,000) in purses, an excise tax shall not be imposed on pari-mutuel wagering on live racing conducted that day at the race track. This tax exemption shall remain in effect for any succeeding one (1) day international horse racing event if the event returns within three (3) years of the previously-held event. For the purposes of this subsection, the daily average handle shall be computed from the amount wagered only at the host track on live racing and shall not include money wagered:

(a) At a receiving track;

(b) At a simulcast facility;

(c) On telephone account wagering; or

(d) At a track participating as a receiving track or simulcast facility displaying simulcasts and conducting interstate wagering as permitted by KRS 230.3771 and 230.3773.

Money shall be deducted from the tax paid by host tracks and deposited to the respective development funds in the amount of three-quarters of one percent (0.75%) of the total live racing handle for thoroughbred racing and one percent (1%) of the total live handle for harness racing.

(2) An excise tax is imposed on:

(a) All licensed tracks conducting telephone account wagering;

(b) All tracks participating as receiving tracks in intertrack wagering under the jurisdiction of the Kentucky Racing Commission; and

(c) All tracks participating as receiving tracks displaying simulcasts and conducting interstate wagering thereon.

(3) The tax imposed in subsection (2) of this section shall be in the amount of three percent (3%) of all money wagered under subsection (2) of this section during the fiscal year. A noncontiguous track facility approved by the Kentucky Racing Commission on or after January 1, 1999, shall be exempt from the tax imposed under this subsection, if the facility is established and operated by a licensed track which has a total annual handle on live racing of two hundred fifty thousand dollars ($250,000) or less. The amount of money exempted under this subsection shall be retained by the noncontiguous track facility, KRS 230.3771 and 230.378 notwithstanding. ***Beginning July 1, 2002, all licensed standardbred racing tracks and any noncontiguous track facility of such tracks approved by the Kentucky Racing Commission on or after January 1, 1999, shall be exempt from the tax imposed under this subsection, and the amount of money so exempted shall be retained by the track, notwithstanding the provisions of Sections 40 and 41 of this Act.***

(4) An amount equal to two percent (2%) of the amount wagered shall be deducted from the tax imposed in subsection (2) of this section and deposited as follows:

(a) If the money is deducted from taxes imposed under subsection (2)(a) and (b) of this section, it shall be deposited in the thoroughbred development fund if the host track is conducting a thoroughbred race meeting or the Kentucky standardbred, quarter horse, Appaloosa, and Arabian development fund, if the host track is conducting a harness race meeting; or

(b) If the money is deducted from taxes imposed under subsection (2)(c) of this section, to the thoroughbred development fund if interstate wagering is conducted on a thoroughbred race meeting or to the Kentucky standardbred, quarter horse, Appaloosa, and Arabian development fund, if interstate wagering is being conducted on a harness race meeting.

(5) ***Three-tenths***[~~Two tenths~~] of one percent ***(0.3%)***[~~(0.2%)~~] of the total amount wagered on live racing in Kentucky shall be deducted from the pari-mutuel tax levied in subsection (1) of this section, and ***three-tenths***[~~one twentieth~~] of one percent ***(0.3%)***[~~(0.05%)~~] of the total amount wagered on intertrack wagering shall be deducted for the pari-mutuel tax levied in subsection (2) of this section, and allocated to the equine industry program trust and revolving fund to be used for funding the equine industry program at the University of Louisville.

(6) One-tenth of one percent (0.1%) of the total amount wagered in Kentucky shall be deducted from the pari-mutuel tax levied in subsections (1), (2), and (3) of this section and deposited to a trust and revolving fund to be used for the construction, expansion, or renovation of facilities or the purchase of equipment for equine programs at state universities. These funds shall not be used for salaries or for operating funds for teaching, research, or administration. Funds allocated under this subsection shall not replace other funds for capital purposes or operation of equine programs at state universities. The Kentucky Council on Postsecondary Education shall serve as the administrative agent and shall establish an advisory committee of interested parties, including all universities with established equine programs, to evaluate proposals and make recommendations for the awarding of funds. The Kentucky Council on Postsecondary Education may by administrative regulation establish procedures for administering the program and criteria for evaluating and awarding grants.

For the purposes of this section, "governing body" means, in an incorporated area, the board of aldermen, city council or board of commissioners; in a county, the fiscal court; in an urban-county government, the urban-county council, or in a charter county, the legislative body created in accordance with KRS 67.825 to 67.875.

No election precinct shall be created, divided, abolished, or consolidated or the boundaries therein changed prior to any general election to comply with the provisions of KRS 117.055 to 117.0555 and KRS 117.0557 later than the last date prescribed by election law generally for filing certificates or petitions of nomination with the county clerk or Secretary of State.

(4) The county board of elections shall designate the name or number and the boundaries of the election precincts. Each precinct shall contain, as nearly as practicable, an equal number of voters, based on the number of registered voters in the county.

(5) A map and listing of the exact election precinct boundaries shall be filed by the county board of elections with the State Board of Elections, and any changes in boundaries thereafter made shall also be filed with the State Board of Elections. A copy of this map indicating all precinct boundaries within the county shall be included in the election supplies of each precinct.

(6) If the county board of elections fails to perform any of the duties required by KRS 117.055 to 117.0555 and KRS 117.0557:

(a) The State Board of Elections or any citizen and voter of the county may apply to the Circuit Court of the county for a summary mandatory order requiring the board to perform the duty. Appeals may be taken to the Court of Appeals by either party; and

(b) The State Board of Elections shall not submit claims for payments to the county under KRS 117.343 and 117.345 until the State Board of Elections determines in writing that the duty has been performed.

(7) The county board of elections shall coordinate all precinct boundary changes with the affected school board, magisterial, and municipal boundaries.

Section 2. KRS 117.355 is amended to read as follows:

(1) Within three (3) days after any primary or general election, the precinct election sheriff shall file a report with the chairman of the county board of elections and with the local grand jury. (2) Within ten (10) days after any primary or general election, the county board of elections shall file a report with the State Board of Elections~~[, the Registry of Election Finance]~~ and the local grand jury. The report shall include any irregularities of which the county board has knowledge and any recommendations for improving the election process. The report shall also include a breakdown by precinct of the number of voters requiring assistance to vote and the reasons therefor; the number of special ballots cast by category; and any other information required by the state board.

(3) ***Within thirty (30) days after any primary or general election, the county board of elections shall transmit the information required by KRS 117.275(4).***

(4) The State Board of Elections shall issue administrative regulations to prescribe the forms required by this section.

Section 3. KRS 117.066 is amended to read as follows:

(1) In the case of a precinct comprised of a small number of registered voters, the county board of elections may, pursuant to KRS 117.055, utilize the facilities of another precinct as a voting location. Additionally, the county board of elections may petition the State Board of Elections to allow the precinct election officers of the larger precinct to serve as precinct election officers for the precinct that is the subject of the petition. The petition shall designate both the smaller precinct and the larger precinct with which it is to be included,~~[and]~~ the type of voting machine or machines to be used***, and whether supplemental paper ballots are to be used***. The petition shall contain a full explanation of the reasons why inclusion is desirable.

(2) If the petition submitted pursuant to subsection (1) of this section is approved by the State Board of Elections, the election shall be conducted according to the following provisions:

(a) One voting machine may be utilized for both precincts if the State Board of Elections certifies that separate ballots may be placed upon the voting machine to be used without endangering the integrity of the ballots or without violating any other election law. Otherwise, separate voting machines shall be used for each precinct***. In the instance of a precinct which has a small number of voters such that the use of a separate voting machine would be cost-prohibitive, the county clerk may make application to the State Board of Elections to use supplemental paper ballots under Section 4 of this Act to conduct the voting for the small precinct on election day. If the use of supplemental paper ballots is approved by the State Board of Elections, at the close of voting on election day, the locked ballot box shall be transported to the county board of elections and ballots shall be counted by the county board of elections as provided by KRS 117.275(8)***;

(b) Separate precinct voter rosters shall be maintained for each precinct, and steps shall be taken to insure that voters cast their ballot in their duly authorized precinct; and

(c) A separate set of elections forms and reports required by this chapter and the State Board of Elections shall be maintained for each precinct.

Section 4. KRS 118.215 is amended to read as follows:

(1) After the order of the names has been determined as provided in KRS 118.225, the Secretary of State shall certify, to the county clerks of the respective counties entitled to participate in the nomination or election of the respective candidates, the name, place of residence, and party of each candidate or slate of candidates for each office, as specified in the nomination papers or certificates and petitions of nomination filed with him, and shall designate the device with which the candidate groups, slates of candidates, or lists of candidates of each party shall be printed, in the order in which they are to appear on the ballot, with precedence to be given to the party that polled the highest number of votes at the preceding election for presidential electors, followed by the political party which received the second highest number of votes, with the order of any other political parties and independents to be determined by lot. Candidates for county offices and local state offices shall be listed in the following order: Commonwealth's attorney, circuit clerk, property valuation administrator, county judge/executive, county attorney, county clerk, sheriff, jailer, county commissioner, coroner, justice of the peace, and constable. The names of candidates for President and Vice President shall be certified in lieu of certifying the names of the candidates for presidential electors. The names shall be certified as follows:

(a) Not later than the second Monday after the filing deadline for the primary;

(b) Not less than twenty-five (25) days before a runoff primary;

(c) Not later than the second Monday after the filing deadline for the general election, except as provided in paragraph (d) of this subsection; and

(d) Not later than the Thursday after the first Tuesday in September preceding a general election, for those years in which there is an election for President and Vice President of the United States.

(2) Except as otherwise provided in subsection (3) of this section, all independent candidates or slates of candidates whose nominating petitions are filed with the county clerk or the Secretary of State shall be listed under the title and device designated by them as provided in KRS 118.315, or if none is designated, under the word "independent," and shall be placed on the ballot in a separate column or columns or in a separate line or lines according to the office which they seek. The order in which independent candidates or slates of candidates shall appear on the ballot shall be determined by lot by

the county clerk. If the same device is selected by two (2) groups of petitioners, it shall be given to the first selecting it and the county clerk shall permit the other group to select a suitable device. This section shall not apply to candidates for municipal offices which come under subsection (3) of this section.

(3) The ballots used at any election in which city officers are to be elected as provided in subsection (2) of this section shall contain the names of candidates for the city offices grouped according to the offices they seek, and the candidates shall be immediately arranged with and designated by the title of office they seek. The order in which the names of the candidates for each office are to be printed on the ballot shall be determined by lot. Each group of candidates for each separate office for which the candidates are to be elected shall be clearly separated from other groups on the ballot and spaced to avoid confusion on the part of the voter.

(4) The Secretary of State shall not knowingly certify to the county clerk of any county the name of any candidate or slate of candidates who has not filed the required nomination papers, nor knowingly fail to certify the name of any candidate or slate of candidates who has filed the required nomination papers.

(5) If the county clerk determines that the number of certified candidates or slates of candidates cannot be placed on a ballot which can be accommodated by the voting machines currently in use by the county, he shall so notify the State Board of Elections not later than the last Tuesday in February preceding the primary or the last Tuesday in August preceding the general election. The State Board of Elections shall meet within five (5) days of the notice, review the ballot conditions, and determine whether supplemental paper ballots are necessary for the election. Upon approval of the State Board of Elections, supplemental paper ballots may be used for nonpartisan candidates or slates of candidates for an office or offices and public questions submitted for a yes or no vote. All candidates or slates of candidates for any particular office shall be placed either on the machine ballot or on the paper ballot. ***Supplemental paper ballots may also be used to conduct the voting, in the instance of a small precinct as provided in Section 3 of this Act.***

(6) The ballot position of a candidate or slate of candidates shall not be changed after the ballot position has been designated by the county clerk.

Section 5. Whereas as a result of differences among magisterial, congressional, and state legislative districts, there will exist precincts with a small number of voters in the 2002 primary elections, such that the cost of a separate voting machine for a small number of voters will be cost-prohibitive, and the privacy of the voters in the small district may be compromised by the tabulation of their votes at the precincts, an emergency is declared to exist, and Sections 3 and 4 of this Act take effect upon the passage and approval of this Act by the Governor or upon its otherwise becoming a law.

A qualified purchased historic home shall be deemed owner-occupied residential property for purposes of this section;

(i) "Qualified rehabilitation expense" means any amount that is properly chargeable to a capital account, whether or not depreciation is allowed under Section 168 of the Internal Revenue Code, and that is expended in connection with the certified rehabilitation of a certified historic structure. (12) "Occupational death" shall mean death due to occupational causes, including, but not limited to, injury or disease;

(13) "Average salary" shall mean the highest average annual salary of the member for any three (3) consecutive years of service within the total service of the member, including employee contributions picked up after August 1, 1982 pursuant to KRS 67A.510(2);

(16) "Total disability" shall mean a disability which substantially precludes a person from performing with reasonable regularity the substantial and material parts of any gainful work or occupation in the service of the department that he would be competent to perform were it not for the fact that the impairment is founded upon conditions which render it reasonably certain that it will continue indefinitely;

(17) "Minor child" includes, as applicable, a child under the age of twenty-three (23) still engaged in full-time education;

(18) "Mayor," "commissioner of finance," "commissioner of public safety," and "director of human resources" shall mean the persons holding the office or job most closely resembling the ordinary meaning of such terms, in the event that a government does not have an office so described; and

(19) "Salary" means the member's actual base rate of pay and any other compensation that the government chooses to include. "Salary" ***shall***~~[may]~~ include longevity pay, training incentive pay, and hazardous duty and special duty pay but shall exclude uniform and equipment allowances, uniform maintenance allowances, education incentive pay, annual payments for excess accumulated sick leave credit, compensation for overtime work, except for scheduled overtime of fire department members, and any other compensation excluded by the government.

Section 2. KRS 67A.410 is amended to read as follows:

(1) Any member may, at his option, retire on a service retirement annuity upon or after attainment of the age of forty-six (46) years, if he shall have completed at least twenty (20) years of total service. Upon fulfillment of these terms, the board shall grant the retirement annuity upon receipt of the application of the member.

(2) Any member who withdraws from service prior to age forty-six (46) years after having completed at least twenty (20) years of total service, and who does not accept a refund of contributions, shall receive, upon application, a certificate entitling him to a service retirement annuity upon his attainment of age forty-six (46) and specifying the amount of the annuity earned and accrued at the date of withdrawal from service.

(3) Upon the death, prior to age forty-six (46), of a member holding a certificate granted pursuant to subsection (2) of this section, the surviving spouse shall receive an annuity equal to sixty percent (60%) of the annuity specified on the certificate, subject to the conditions and additional benefits found in KRS 67A.450(1)(a), 67A.450(1)(b), 67A.450(2), and 67A.450(3).

(4) The benefits provided in KRS 67A.600 and 67A.690 to an eligible member who retires or withdraws from service under the provisions of subsection (1) or (2) of this section after July 15, 1994, or to the member's surviving spouse or dependent children, shall be calculated when the member is retired for one (1) year or attains the age of forty-seven (47), whichever is later, or would have been retired for one (1) year or reached the age of forty-seven (47), whichever is later, if the member died before being retired one (1) year or reaching the age of forty-seven (47).

(5) On or before March 3, 2003, the board shall provide for a vote by the full active membership on a provision that would allow members to retire with full benefits after twenty (20) years of total service, regardless of age. If a majority of the

active membership voting votes in favor of a twenty (20) year service provision, the urban-county government, in coordination with the board, shall enact the twenty (20) year service provision within a period of six (6) months. Notwithstanding any statute to the contrary, any member retiring after the enactment of the twenty (20) year service provision, if enacted, shall be eligible to retire with twenty (20) years of service regardless of age.

Section 3. KRS 67A.430 is amended to read as follows:

(1) The rate of retirement annuity shall be two and one-half percent (2.5%) of average salary, as defined in KRS 67A.360(13), for each year of total service. Fractional periods of service shall be considered in the calculation of such annuities according to the aforesaid rate. Provided, however, that no retiree, or his surviving widow, whether he retired before or after June 16, 1972, under this section shall receive a pension of less than $100 a month and when Social Security benefits are increased the minimum shall be increased by a like amount, provided that the increase shall not exceed five percent (5%).

(2) Any retiree or surviving spouse who as of July 1, 2001, is receiving a monthly annuity of less than one thousand dollars ($1,000) shall have the pension increased to one thousand dollars ($1,000), and the board ***shall***[~~may~~] increase this annuity ***at the same rate*** as ***annually*** provided by KRS 67A.690(1)***, and such increase shall be determined and granted annually thereafter by the board***.

Section 4. KRS 67A.440 is amended to read as follows:

(1) Upon death of a member due to occupational causes, regardless of length of service, his surviving widow shall be entitled immediately upon cessation of salary to an annuity equal to sixty percent (60%) of the member's last rate of salary. This annuity shall be payable until she dies[~~ or remarries~~]. In addition, if any minor children of the member, under age eighteen (18), survive the member, the widow or parent or legal guardian shall receive on account of each child, ten percent (10%) of the member's last rate of salary until each child attains age eighteen (18). In the case of a child regularly engaged in full-time educational activities, payments shall continue until age twenty-three (23), but payments shall be made directly to a child between the ages of eighteen (18) and twenty-three (23). The combined payments to a widow and minor children shall not exceed seventy-five percent (75%) of his final rate of salary. When more than one (1) child survives the member, the amount payable by reason of such children shall be divided equally among them.

(2) If the member is not survived by a widow, or, if she remarries, and there are minor children of the member, the following benefits shall be paid:

(a) One (1) minor child, fifty percent (50%) of the final rate of salary;

(b) Two (2) minor children, an additional fifteen percent (15%) of final salary;

(c) Three (3) or more minor children, an additional ten percent (10%) of final salary, subject to a maximum combined payment of seventy-five percent (75%) of the member's final rate of salary.

These benefits shall be divided in equal amounts for each child and paid to the parent or legal guardian of each child under eighteen (18). In the case of a child regularly engaged in full-time educational activities, payments shall continue until age twenty-three (23), but payments shall be made directly to the child between the ages of eighteen (18) and twenty-three (23). As eligibility of children expires, the total annuity payment shall be reduced by percentage amount in reverse order.

(3) If neither a widow nor minor children eligible for benefits survive the member, each dependent parent shall be entitled to an annuity equal to twenty-five percent (25%) of the member's last rate of salary, or fifty percent (50%) to both parents.

Section 5. KRS 67A.520 is amended to read as follows:

The government shall make current contributions to the fund on an actuarially funded basis, toward the annuities and benefits herein provided. These contributions shall be equal to the sum of the following:

(1) An annual amount resulting from the application of a rate percent of salaries of active members determined by the entry age normal cost funding method. Such rate percent shall be fixed by the board every ***two (2)***[~~three (3)~~] years, within six (6) months after the actuarial study required by subsection (6) of KRS 67A.560 (actuarial survey of the fund), and shall be in effect for a period of at least ***two (2)***[~~three (3)~~] years.

(2) An amount resulting from the application of a rate percent of the salaries of active members which will provide each year regular interest on the remaining liability for prior service.

(3) In any event, the total contribution of the government shall be at least seventeen percent (17%) of the salaries of the active members participating in the fund.

(4) In addition to other remedies provided by law, any member of the fund or any annuitant may obtain in the Circuit Court of any county in which the government is located an injunction or mandamus requiring the government to comply herewith.

Section 6. KRS 67A.580 is amended to read as follows:

(1) An adequate system of accounts and records shall be established and maintained for the fund that will reflect fully the requirements of the provisions of KRS 67A.360 to 67A.690. This system shall be integrated, to the extent possible with the accounts, records, and procedures of the government to the end that the same shall operate most effectively and at minimum expense, and that duplication of records and accounts may be avoided.

(2) All assets of the fund shall be credited according to the purposes for which they are held in the following designated

reserve accounts:

(a) Members' Contribution Reserve. The amounts contributed by the members, including those picked up pursuant to KRS 67A.510(2), shall be credited to this reserve, together with regular interest thereon as herein provided. An individual account shall be maintained for each member, to which shall be credited the amounts of his contributions or amounts picked up by the urban-county government. Upon the granting of a service retirement annuity, disability annuity, or survivor's annuity or benefit, the accumulated contributions to the credit of the member concerned shall be transferred from this reserve to the retirement reserve. Refunds and death payments representing member's contributions shall be charged to this reserve.

(b) Employer's Contribution Reserve. The amounts contributed by the government under the provisions hereof, for service retirement annuity, disability retirement annuity, and benefits to survivors covering membership service and prior service, shall be credited to this reserve. Upon the granting of a service retirement annuity, disability retirement annuity, or survivor's benefit, an amount representing the excess of the actuarial value of the annuity, or benefit over the accumulated contributions of the member, shall be transferred from this reserve to the retirement reserve.

(c) Retirement Reserve. Upon the granting of a service retirement annuity, disability retirement annuity, or survivor's benefit, the accumulated contributions of the member, including those picked up pursuant to KRS 67A.510(2), and an amount representing the excess of the actuarial value of the annuity or benefit over such accumulated contributions, shall be transferred to this reserve from the member's contribution reserve and employer's contribution reserve, respectively. All income from investments, including gains on investment transactions, shall be credited to this reserve. All losses on investments shall be charged to this reserve. All payments on account of any annuity made by the fund shall be charged to this reserve. Any excess balance in this reserve, as determined by actuarial valuation as of the close of any fiscal year, shall be applied to reduce the ***employee's***[~~government's~~] contributions for membership service for the fiscal years next following the date of such valuation. Any deficiency in this reserve shall be removed by an increase in the amount of government's contributions for future membership service.

Section 7. KRS 67A.690 is amended to read as follows:

(1) When a member has been retired for one (1) year or attained forty-seven (47) years of age, whichever is later, or when he would have been retired for one (1) year or attained forty-seven (47) years of age in the event the member is deceased, the board shall increase his retirement annuity or the annuity paid to his widow or dependent children by not less than two percent (2%) nor more than five percent (5%) per year, compounded annually; and such increase shall be determined and granted annually thereafter by the board.

(2)[~~(a) Notwithstanding the provisions of subsection (1), any member who retires under a disability arising from any cause other than in the performance of duty shall be entitled to an increase in his retirement annuity, or in the event he is deceased, in the annuity paid to his widow or dependent children by two percent (2%) per year; and such increase shall be granted annually thereafter by the board. Such increase shall be compounded until and including the date upon which the member would have been retired for one (1) year or the date upon which he has attained forty-seven (47) years of age, whichever is later, or would have been retired for one (1) year or would have attained forty-seven (47) years of age in the event the member is deceased. Thereafter, the annuity paid to the member or to his widow or to the guardian of his minor children shall be increased as provided in subsection (1) of this section.~~

~~(b)~~] Beginning July 1, 2001, notwithstanding any other provision to the contrary, any member, retired under occupational disability, as provided in KRS 67A.460, ***or nonoccupational disability*** shall be entitled to an increase in his or her annuity, or in the event of death the annuity paid to his or her spouse or dependent, after he or she has been retired one (1) year regardless of age or date of retirement. The amount of the annual increase shall be the same as described in subsection (1) of this section, compounded annually, and the increase shall be determined and granted annually thereafter by the board. For a member retired on occupational disability for a length of time in excess of one (1) year prior to June 21, 2001, the board shall increase the member's annuity as described in this paragraph, on July 1, 2001, and each July 1 thereafter.

(3) (a) A member who retired pursuant to the provisions of KRS 67A.360 to 67A.690 prior to July 15, 1980, or pursuant to KRS 67A.690(2) after July 15, 1980, or his surviving spouse or eligible surviving children, shall receive an upward adjustment in their retirement or survivor's annuity by calculation of a two percent (2%) annual increase compounded from July 1, 1974, until July 15, 1980, and annual increases compounded, from July 15, 1980, until July 15, 1990, in the same percentage amount by which the pension board increased other pensions pursuant to subsection (1) of this section for those same years. For purposes of calculation, unless the member retired under disability, the member's or survivor's first increase shall occur after the member was retired for one (1) year or attained the age of forty-seven (47), whichever was later, or would have been retired one (1) year or reached the age of forty-seven (47), whichever was later, in the event the member died before being retired one (1) year or reaching the age of forty-seven (47). In the case of retirement under disability, no age or length of retirement criteria shall apply.

(b) After calculation of the new annuity level, members of age forty-seven (47) or more affected by this subsection, or survivors of a member who would have been forty-seven (47) or more in the event the member is deceased, shall be granted the same annual increase granted to retirees who retired July 15, 1980, or thereafter, pursuant to subsection (1) of this section, and the annuity on which this cost-of-living increment is based shall be the annuity level reached through the addition of annual compounded increases calculated pursuant to paragraph (a) of this subsection, but not less than the annuity level in effect prior to July 15, 1990. If the member has not attained the age of forty-seven (47) or would not have attained the age of forty-seven (47) in the event the member is deceased, then the member or survivor shall receive increases of two percent (2%) compounded annually until the member attains or would have attained age forty-seven (47), at which time the same annual increase granted to retirees who retired July 15, 1980, or thereafter shall apply.

(4) The provisions of subsection (3) of this section shall not apply to any retiree or surviving spouse who receives a minimum retirement annuity, annually adjusted, pursuant to KRS 67A.430. If, in the future, any retiree or spouse annuity granted pursuant to this section falls below the adjusted minimum annuity, the affected retiree or spouse shall be granted, from that time forward, the adjusted minimum annuity calculated pursuant to KRS 67A.430.

SECTION 8. A NEW SECTION OF KRS 67A.210 TO 67A.350 IS CREATED TO READ AS FOLLOWS:

(1) All members of the policemen's and firefighters' retirement fund of the urban-county government, operated pursuant to KRS 67A.360 to 67A.690, and all members of the urban-county government city employees pension fund who retired prior to July 1, 1999, and who did not terminate their participation in the group health insurance plan provided by the urban-county government before that date, and all members who retire on or after July 1, 1999, or who withdraw from service on a certificate pursuant to subsection (2) of Section 2 of this Act, shall continue to be eligible to participate, at the member's cost, in a group health insurance plan approved by the urban-county council for such retirees.

(2) The urban-county government shall provide, on behalf of all eligible members of the policemen's and firefighters' retirement fund and city employees pension, the following benefits:

(a) A sum equal to the single premium for the plan coverage selected by the retiree, but not more than one hundred percent (100%) of the urban-county government's contribution to the health insurance component of the benefit pool for current urban-county government employees; and

(b) Upon the death of a member of the policemen's and firefighters' retirement fund due to occupational causes, the urban-county government shall pay to the approved provider of the group health insurance plan one hundred percent (100%) of the cost of the family medical coverage for the member's surviving spouse and dependent children as long as they remain eligible for a monthly retirement allowance from the retirement fund.

(3) No benefits shall be available under this section to retired members who were not, immediately prior to July 1, 1999, participants in the group health insurance plan coverage provided to urban-county government employees and retirees or who retire on or after July 1, 1999, and, at the time of their retirement, do not elect to participate in the group health insurance plan coverage provided pursuant to subsection (1) of this section.

(4) Benefits shall be available under this section to members of the policemen's and firefighters' retirement fund who withdraw from service on a certificate pursuant to subsection (2) of Section 2 of this Act when they attain the age of forty-six (46) years if, at the time they withdraw from service, they elect to participate in the group health insurance plan coverage provided pursuant to subsection (1) of this section upon attaining age forty-six (46).

(5) All payments shall be made to the approved provider of the group health insurance plan, not to the retiree, and the retiree shall not be entitled to receive any portion of the government contribution remaining after payment is made to the approved provider.

(6) Group rates under the group health insurance plan approved by the urban-county council under subsection (1) of this section shall be made available to the spouse, dependents, and disabled children, regardless of the disabled child's age, of a qualified and participating retiree, if the premium for the spouse, dependent, or disabled child is paid by the retired member, spouse, dependent, or disabled child, by payroll deduction or similar method.

Section 7. KRS 67A.690 is amended to read as follows:

(1) When a member has been retired for one (1) year or attained forty-seven (47) years of age, whichever is later, or when he would have been retired for one (1) year or attained forty-seven (47) years of age in the event the member is deceased, the board shall increase his retirement annuity or the annuity paid to his widow or dependent children by not less than two percent (2%) nor more than five percent (5%) per year, compounded annually; and such increase shall be determined and granted annually thereafter by the board.

(2)[~~(a) Notwithstanding the provisions of subsection (1), any member who retires under a disability arising from any cause other than in the performance of duty shall be entitled to an increase in his retirement annuity, or in the event he is deceased, in the annuity paid to his widow or dependent children by two percent (2%) per year; and such increase shall be granted annually thereafter by the board. Such increase shall be compounded until and including the date upon which the member would have been retired for one (1) year or the date upon which he has attained forty-seven (47) years of age, whichever is later, or would have been retired for one (1) year or would have attained forty-seven (47) years of age in the event the member is deceased. Thereafter, the annuity paid to the member or to his widow or to the guardian of his minor children shall be increased as provided in subsection (1) of this section.~~

~~(b)~~] Beginning July 1, 2001, notwithstanding any other provision to the contrary, any member, retired under occupational disability, as provided in KRS 67A.460, ***or nonoccupational disability*** shall be entitled to an increase in his or her annuity, or in the event of death the annuity paid to his or her spouse or dependent, after he or she has been retired one (1) year regardless of age or date of retirement. The amount of the annual increase shall be the same as described in subsection (1) of this section, compounded annually, and the increase shall be determined and granted annually thereafter by the board. For a member retired on occupational disability for a length of time in excess of one (1) year prior to June 21, 2001, the board shall increase the member's annuity as described in this paragraph, on July 1, 2001, and each July 1 thereafter.

(3) (a) A member who retired pursuant to the provisions of KRS 67A.360 to 67A.690 prior to July 15, 1980, or pursuant to KRS 67A.690(2) after July 15, 1980, or his surviving spouse or eligible surviving children, shall receive an upward adjustment in their retirement or survivor's annuity by calculation of a two percent (2%) annual increase compounded from July 1, 1974, until July 15, 1980, and annual increases compounded, from July 15, 1980, until July 15, 1990, in the same percentage amount by which the pension board increased other pensions pursuant to subsection (1) of this section for those same years. For purposes of calculation, unless the member retired under disability, the member's or survivor's first increase shall occur after the member was retired for one (1) year or attained the age of forty-seven (47), whichever was later, or would have been retired one (1) year or reached the age of forty-seven (47), whichever was later, in the event the member died before being retired one (1) year or reaching the age of forty-seven (47). In the case of retirement under disability, no age or length of retirement criteria shall apply.

(b) After calculation of the new annuity level, members of age forty-seven (47) or more affected by this subsection, or survivors of a member who would have been forty-seven (47) or more in the event the member is deceased, shall be granted the same annual increase granted to retirees who retired July 15, 1980, or thereafter, pursuant to subsection (1) of this section, and the annuity on which this cost-of-living increment is based shall be the annuity level reached through the addition of annual compounded increases calculated pursuant to paragraph (a) of this subsection, but not less than the annuity level in effect prior to July 15, 1990. If the member has not attained the age of forty-seven (47) or would not have attained the age of forty-seven (47) in the event the member is deceased, then the member or survivor shall receive increases of two percent (2%) compounded annually until the member attains or would have attained age forty-seven (47), at which time the same annual increase granted to retirees who retired July 15, 1980, or thereafter shall apply.

(4) The provisions of subsection (3) of this section shall not apply to any retiree or surviving spouse who receives a minimum retirement annuity, annually adjusted, pursuant to KRS 67A.430. If, in the future, any retiree or spouse annuity granted pursuant to this section falls below the adjusted minimum annuity, the affected retiree or spouse shall be granted, from that time forward, the adjusted minimum annuity calculated pursuant to KRS 67A.430.

SECTION 8. A NEW SECTION OF KRS 67A.210 TO 67A.350 IS CREATED TO READ AS FOLLOWS:

(3) No benefits shall be available under this section to retired members who were not, immediately prior to July 1, 1999, participants in the group health insurance plan coverage provided to urban-county government employees and retirees or who retire on or after July 1, 1999, and, at the time of their retirement, do not elect to participate in the group health insurance plan coverage provided pursuant to subsection (1) of this section.

(4) Benefits shall be available under this section to members of the policemen's and firefighters' retirement fund who withdraw from service on a certificate pursuant to subsection (2) of Section 2 of this Act when they attain the age of forty-six (46) years if, at the time they withdraw from service, they elect to participate in the group health insurance plan coverage provided pursuant to subsection (1) of this section upon attaining age forty-six (46).

(5) All payments shall be made to the approved provider of the group health insurance plan, not to the retiree, and the retiree shall not be entitled to receive any portion of the government contribution remaining after payment is made to the approved provider.

(6) Group rates under the group health insurance plan approved by the urban-county council under subsection (1) of this section shall be made available to the spouse, dependents, and disabled children, regardless of the disabled child's age, of a qualified and participating retiree, if the premium for the spouse, dependent, or disabled child is paid by the retired member, spouse, dependent, or disabled child, by payroll deduction or similar method.

The criteria may include the certification of individuals, partnerships, and companies. Criteria shall be established to certify laboratories that contract to perform analytical testing related to the underground storage tank program.[~~ The criteria for certification of laboratories shall be established no later than January 1, 1999. If the unobligated balance in the fund is not adequate to meet the requirements of this paragraph, the office shall obligate funds necessary to meet these requirements;

(b) Establish by administrative regulation the criteria to be met to be eligible to participate in the ***financial responsibility and petroleum storage tank accounts***[~~fund~~] and ***to*** receive reimbursement from ***these accounts***[~~the fund~~]. (c) Establish a financial responsibility account within the fund which may be used by petroleum storage tank owners and operators to demonstrate financial responsibility as required by administrative regulations of the cabinet or the federal ***regulations applicable to***[~~government for~~] petroleum storage tanks, consistent with the intent of the General Assembly as set forth in KRS 224.60-120(5). ***The account shall receive four-tenths of one cent ($0.004) from the one and four-tenths cent ($0.014) paid on each gallon of gasoline and special fuels received in this state pursuant to KRS 224.60-145***[~~The amount to be maintained in this account shall be established by the office~~]. (e) Establish a petroleum storage tank account within the fund to be used to pay the costs of corrective action due to a release from a petroleum storage tank not eligible for reimbursement from the financial responsibility account. ***Reimbursements of corrective action projects performed under the petroleum storage tank account shall be carried out on or before July 15, 2009. Any corrective action costs incurred after this date shall not be eligible for reimbursement under the petroleum storage tank account. The account shall receive one cent ($0.01) from the one and four-tenths cent ($0.014) paid on each gallon of gasoline and special fuels received in this state pursuant to KRS 224.60-145.*** This account shall not be used to compensate third parties for bodily injury and property damage. ***Within three (3) months after the effective date of this Act, the office shall develop a plan to***

address the payment of claims and completion of corrective action at facilities eligible for reimbursement from this account. The office shall establish a ranking system to be used for the distribution of amounts from this account for the purpose of corrective action. In promulgating administrative regulations to carry out this section, the office shall consider the financial ability of the petroleum storage tank owner or operator to perform corrective action and the extent of damage caused by a release into the environment from a petroleum storage tank;

(f) Hear complaints brought before the office regarding the payment of claims from the fund in accordance with KRS Chapter 13B;

(g) Establish and maintain necessary offices within this state, appoint employees and agents as necessary, and prescribe their duties and compensation;

(h) Employ, in accordance with the procedures found in KRS 45A.690 to 45A.725 for awarding personal service contracts, a qualified actuary to perform an actuarial study, ***as directed by the office, for determining an appropriate reserve in the financial responsibility account and the petroleum storage tank account sufficient to satisfy the obligations in each account for all eligible facilities and to satisfy future liabilities and expenses necessary to operate each account***[~~no less than every two (2) years, that recommends to the office an actuarially sound entry level to the fund prior to two (2) years from April 9, 1990~~]. The office shall, by administrative regulation, set the entry level for participation in the fund;

(i) Authorize expenditures from the fund to carry out the purpose of KRS 224.60-105 to 224.60-160, including reasonable costs of administering the fund, the procurement of legal services, and the procurement of analytical testing services when necessary to confirm the accuracy of analytical testing results obtained by a petroleum storage tank owner or operator***. The expenditures shall be paid from the appropriate account***;

(j) Establish a small operators' tank removal account within the fund to reimburse the reasonable cost of tank system removal for small owners and operators. The account shall not be used when an owner or operator is removing the tank with the intention of replacing or upgrading the tank. In promulgating administrative regulations to carry out this paragraph, the office may distinguish among owners and operators based on income, number of tanks, number of facilities, and types and classes of tanks;

(k) Establish by administrative regulation the policy, guidelines, and procedures to perform financial audits of any petroleum storage tank owner or operator receiving reimbursement from the fund or any entity contracting or subcontracting to provide corrective action services for facilities eligible for fund reimbursement. Financial audits shall be limited to those files, records, computer records, receipts, and other documents related to corrective action performed at a facility where the costs of corrective action have been reimbursed by the fund. Files, records, computer records, receipts, and other documents related to corrective action reimbursed by the fund shall be subject to a financial audit for a period of three (3) years after the date of final reimbursement from the fund. Results of the audits shall be protected from disclosure as allowed by KRS 61.878(1)(c). Financial auditing services may be contracted for or personnel may be employed as needed to implement the requirements of this paragraph;

(l) Be authorized to enter and inspect any facility intending to seek reimbursement for the cost of corrective action to determine the reasonableness and necessity of the cost of corrective action. The office may collect soil or water samples or require storage tank owners or operators to split samples with the office for analytical testing. Refusal to allow entry and inspection of a facility or refusal to allow the office to collect or split samples shall make the facility ineligible for fund participation;[~~ and~~]
